Interesting minds are far rarer than pretty faces, probably because they're less in demand.

BUY YOUR GOODS-SPEND YOUR MONEY-WHERE YOU CAN GET THE MOST FOR IT-I MEAN MOST VALUE.

A great many good people are sending their money away to the mail order houses, and getting JUNK—or if anything better—then are paying more than they should.

I will meet or undersell any price you can get from any mail order house for like goods and the other merchants in Marshall can do the same.

If this, then, be true, why send your money out of the County to firms that do nothing for the County. The merchants in Marshall are entitled to your patronage for they pay more than \$5,000.00 each year in

taxes to help run the schools to educate your children, while the mail order houses do nothing and it's gone.

Be fair with us as we will be with you, for we help in every public undertaking both for the town and county, and can only continue to do so by having your support.

If you can not buy your goods from me, then surely you can from some of the other merchants here, thus keeping your money at home.

THINK IT OVER—Resolve this day to never send another cent to the mail order houses. YOUR FRIEND,

G. L. MCKINNEY
