"JED" TELLS THE NEWS

Dear Editor: I wish to state to the writer of Barnard in the last issue, Feb. 1, 1929. We all enjoy reading our home paper, but we enjoy reading the news worth while the most of all. We all get tired of so much nonsense.

"The Tit Bits" in the issue of Jan. 25, 1929. We as follows enjoyed it.

"The Axman of the Woods."

"The Musician."

"The Fisherman."

Also "The Young Clerk."

We all enjoyed this for it takes a good man to fill such places.

Yes, "There is so much good in the worst of us, and so much bad in the best of us."

That's true enough, but let me tell you, we can make a little amendment by looking after our own business and letting the other fellows alone.

"Be sure your sins will find you out."

Jeff Buckner, Barnard, N. C.

We were glad to see Mr. and Mrs. Tom Cargile out again after being confined at home with flu.

What 59 years have taught us about making gasoline

The Standard Oil Company of New Jersey was a pioneer in refining gasoline. Since the first automobile was built "Standard" has been—both in quantity and quality—the leader in the refining and supplying of this necessary motor fuel.

This company has spent millions of dollars in research work and in the development of new and better processes of making gasoline. What has been the result? Just this—that you can depend on finding in every gallon of "Standard" Gasoline these qualities:

- Easy Starting—even in coldest weather.
Quick Acceleration—a necessary thing in traffic.
Power, Steady and Reliable—for hill climbing and long hard runs.
Mileage Efficiency—proved over and over by road tests in every type of car.
Safety to Motor—a fuel that cannot possibly injure your engine.
Complete Combustion—a fuel that burns cleanly, leaving practically no carbon, and burns completely, leaving no "loose ends" to seep down and dilute the motor oil in the crank case.
Uniformity—you can set your carburetor on "Standard" and forget it; for every gallon is like every other gallon wherever you buy it.
Availability—"Standard" Gasoline has the further advantage of being easily obtained, as our red "Standard" pumps are conveniently located throughout the length and breadth of this state.

This rare combination of qualities makes "Standard" the best all-round gasoline on the market. The fact that it outsells any other brand of gasoline in this state by more than 2 to 1, is evidence of its superior qualities.

Use "Standard" Gasoline and you will get unvarying fuel satisfaction.

"STANDARD" GASOLINE

STANDARD OIL COMPANY OF NEW JERSEY

There is no truly "anti-knock" motor fuel being sold, except at a premium price. The best known "anti-knock" fuel is ESSO, the Giant Power Fuel. It is acknowledged by engineers to be in a class by itself—a genuine anti-knock fuel, specially made for use in high compression motors, and in motors that are carbonized from long usage. ESSO costs more to make and less to be sold at a small premium over "Standard" Gasoline, but ESSO gives an extra engine performance never before experienced. On sale only at the Silver ESSO Pumps with the ESSO Globes.
