BIBLE THOUGHT AND PRAYER If parents will have their children memorize a Bible selection each week, it will prove a priceless heritage to them in after years.

CHRISTIAN CONFIDENCE: This is the confidence that we have in him, that, if we ask anything according to his will, he heareth us.—1 John 5:14.

PRAYER.—Dear Lord, Thou didst assure us that if we ask we shall receive, if we seek we shall find, and if we knock it shall be opened unto us.

Why is a little that a righteous man hath, better than the riches of many wicked?—Psalm 37:32-37.

OFFICE KAT KOLUM By the "Office Cat"

Didja miss my Kolum last week? Uh, huh, I thought so. I hated to disappoint you folks a whole lot, but honest, circumstances would not permit me to write my Kolum last week.

Well, I guess "Herb" is busy now with the many, many duties of President of the United States. Gee, whiz! For my part, I'd hate to be in his shoes. Yup! It seems that the people all over these United States of ours are expecting great things of Hoover; in fact, they are expecting too darned much, if you ask my opinion of it.

out. I'll stay in the printing office and he'll stay in the White House, and I doubt seriously that he will ever have much to say to me. But here's wishing him good luck, anyway.

It seems that Lindbergh's days of freedom are about over. I don't suppose that it will be very long now until he has taken unto himself a wife, and when that happens, you may look out! I am not speaking from experience, however, for I am a bachelor Kat (and just as free as they get, believe me).

Following is a pretty good little "pome" which was handed to me for my Kolum:

"May I print a kiss on your lips?" I asked. She nodded her sweet permission. So we went to press and I rather guess We printed a large edition.

Enemies of Civilization

Thirty million dollars worth of livestock and game is being destroyed annually by wolves, coyotes, mountain lions and bobcats, according to a statement made by the United States Bureau of Biological Survey.

A report on the whole predatory animal control situation has been transmitted to Congress by Secretary of Agriculture Jardine to back up his suggestion for a ten-year cooperative predatory-animal control campaign. He recommends annual appropriations of \$1,378,700 for the next ten years to carry the program into effect.

"What a fine looking husband you have, Mrs. Willikins." "Yes, isn't he? I've had him in the family for several weeks."

The county poultry association of Gaston County has marketed 24,687 pounds of live poultry for its members since the first of the year.

NOTICE OF FORECLOSURE SALE

By virtue of power vested in me by a certain deed of trust executed on the 6th day of April, 1927 by John W. Randall, widower to me as trustee, to secure a debt therein described, to G. W. Plemmons, recorded in book 32 page 160 of records of deeds of trust of Madison County. The said debt secured, having become due and payable, and default having been made in the payment of said debt, and having been requested to foreclose said deed of trust, under the power therein contained; I will offer said lands for sale described in said deed of trust at public auction to the highest bidder for cash, at the court house door in the town of Marshall, Madison County, N. C., on the 13th day of April, 1929, at 12 o'clock M. to satisfy said debt, interest and cost. Said lands are described as follows: Situated in No. 7 Township in Madison County, N. C.; adjoining the lands of Joby Lunsford, Fleet Goforth; Elmer Randall and others. Said lands consist of two tracts. The first tract lying on the West side of French Broad River, on the waters of Anderson Branch, known as a part of the John Goforth farm, beginning on a sourwood, near the old ridge road, leading to the River, and runs S 6 poles to a sourwood, thence S 39 E 61 poles to a small dogwood, thence with John W. Randall's line to a hickory and sourwood, thence west 18 poles to a stake, thence N 10 W 35 poles to a stake, at the top of the ridge, thence N 69 W 10 poles to a black walnut, thence N 13 E 18 poles to a stake at top of the hill, thence N 14 W 10 poles to a rock and pointer, thence E 53 poles to a rock and small white pine, thence N 68 poles to the top of ridge at a hickory in Payne line thence S 30 E 25 poles to a stake, thence with the Payne line to the beginning, containing 35 acres, more or less. For a fuller description reference is had to deed book No. 21 at page 340 of Record of Deeds of Madison County.

Second Tract: Adjoining the first tract and known as a part of the Hickory Spurr tract. Beginning on a beech stump and stake in the beech gap, near the old Gudger tract of land and runs west with the meanders of the top of the ridge 40 poles to a stake, thence N 73 W 23 poles to a sourwood, thence S 6 poles to a sourwood, thence S 39 E 61 poles to a small dogwood thence N 30 E 51 poles to the beginning. Containing 9 acres and 1-11, more or less. For a full description reference is made to deed book 17 at page 528 Record of Deeds of Madison County.

Also another strip of land lying on the south-east side of the second tract above described, and being all that strip between the above second tract and the first tract.

The above described lands include the place where the Harrison Goforth House and log barn for stock is located, being about one mile and one fourth above Barnard.

MANUFACTURE OF CORN SUGAR AIDS FARM PROSPERITY

CHICAGO.—Use of corn in the manufacture of sugar and allied products is helping to solve the problem of creating a profitable cash market for the surplus corn production of America's 6,000,000 farms.

Of 2,778,000,000 bushels of corn farms every year, 87 1/2 per cent is used for feeding live stock. The other 12 1/2 per cent finds its way to the markets, where the price is set which determines the value of the entire corn crop, according to Jay Chapin, secretary of the Associated Corn Products Manufacturers.

"The corn products industry is using 85,000,000 bushels of American grown corn every year," said Mr. Chapin. "Of this about 30 per cent goes into the manufacture of corn sugar. If this great quantity of corn were not used for sugar making it would have to be exported and take its chances for profit in the world market in competition with foreign corn produced at a lower cost than American farmers can produce the crop.

"Greater development of the corn sugar industry would be to the interest of every American farmer growing corn. It would increase the market for his surplus corn, tend to stabilize the prices and add millions of dollars annually to the nation's farm revenue. Elimination of the present discrimination in the federal regulations against corn sugar used in commercial canning and preserving would be an important step in this direction. The use of corn sugar in manufactured food products without being so labeled should be no more of an impairment of the nation's pure food laws than the use of beet or cane sugar for such purposes. The American Farm Bureau Federation recently went on record at its annual convention with resolutions urging that 'corn sugar be given its rightful place in the trade practices of the nation and so provide an increased market for one of our staple crops.'"
