

MONARCH CO. REORGANIZED

Kohloss Resigns. Committee Of Three To Operate Or Dispose Of Plant

A meeting of the stockholders of the Monarch Manufacturing Company of Marshall was held at its plant Wednesday evening at eight o'clock. Mr. R. A. Kohloss, the former manager, and Miss Viva Hayton, secretary, were present and in all a hundred and seventy-five shares of the two hundred and twenty were represented. The president, Guy V. Roberts, stated that the plant had been closed down in order to save the stockholders from further loss in operating, and that it was necessary to make some changes. He called upon the various stockholders to offer suggestions. Mr. R. A. Kohloss, after some remarks, resigned as manager and one of the directors, and a special committee consisting of Messrs. E. R. Tweed, G. L. McKinney, of Marshall, and Mr. H. A. Osborne, of Canton, was elected to devise ways and means of either resuming operations or disposing of the property. The rent on the building was reduced from \$75 a month to \$50, by the consent of its owner, Mr. Roy L. Gudgeon, who stated that he was anxious to do everything possible to make the plant go. Mr. R. A. Kohloss left Thursday morning for Durham, to be gone about a week. It is hoped that some way will be found whereby the plant can be operated as such an industry means something for our town.

A LETTER FROM MICHIGAN

April 22nd, 1930

The Editor of the News-Record, Marshall, N. C.

Dear Sir:

Would you please allow space in your paper for a few words? As I understand, it's rumored in the Big Pine section that I belong to the Roman Catholic church here in Michigan. That statement is absolutely false. I never helped them in any way. I would never be guilty of "stooping" that low. I am one hundred percent American. I have always stood for protestantism, and always expect to do so.

I hope this will convince the people who have heard these things, that it's only the work of some "Crank," who started it.

Thanking you kindly,
CONRAD G. BAKER,
84 Haltiner Street,
River Rouge, Michigan.

THE PUBLISHER'S COLUMN ABOUT VARIOUS MATTERS

THE TAX PROBLEM TROUBLES MOST PEOPLE

As stated in Tuesday's paper, the publisher of The News-Record was one of the delegates named by the mass meeting in Marshall Saturday to attend the State Association for Tax Relief, which convened in Raleigh Monday, April 21st. Of all the number named, he was the only one of the delegation who attended the meeting. It is therefore expected of him to make a report.

The assembly hall of the Sir Walter was practically filled with men and women from many parts of the State vitally interested in making some changes with reference to taxation. Three hundred and ninety-seven delegates registered, representing forty-six counties. Chairman Moore discussed briefly the history and purposes of the organization. First Vice-President and Executive Secretary J. Frazier Glenn read the constitution and by-laws of the organization, which were adopted. Speeches were made by Dr. Carl Taylor, Dean of the graduate school of State College, Honorable Josephus Daniels, Dr. Oscar Haywood, Honorable Hallett S. Ward, and others.

The Association went on record as advocating full State support of the constitutional six months school term and full State maintenance of all public roads. When the matter of a general sales tax, luxury tax, etc., was mentioned, it was decided that the association not put itself on record as favoring this or that method of raising new revenue, but rather stick to the first object of reducing taxes on land and leaving to the legislature the duty of finding the needed money. Hon. Josephus Daniels seemed to strike the sentiment of the assembly when he spoke favoring a sales tax and against the present tax exemption of stocks and foreign corporations, and the proposed amendment for classification of property.

The Association, after some discussion, voted that a special session of the legislature be called between the fall election and Christmas to take up this matter of changes in taxation. It was brought out in the meeting that a legislator's term begins immediately after election and qualification, hence the 1931 legislature would be meeting in special session the latter part of 1930. The idea seemed to be to create a sentiment along the lines suggested that would insure the incoming legislature favoring the policies of this association. In brief, the above are the salient points of the meeting of the association.

THE STRAW VOTE

The Literary Digest has polled a straw vote of a small portion of our people and raised a great hue and cry as though it meant anything in the world. Of course, the result was a victory for the wet. From the beginning it was wet propaganda. It is surprising that the Literary Digest, a respectable and dignified publication, would lend itself to a cause so unworthy. To show the utter unreliability of the count, North Carolina is put on the wet side. If there is a state in the Union that is dry it is North Carolina. However there is a small element of our people who were counted in that straw vote and the dry votes left out. Of course, the United States by the straw vote is wet by a large majority. Nobody expected anything else. Two million were counted in this straw vote. Many of them voted more as a joke than for any other reason. One man who is dry as a bone said he voted in the ticket of the Digest for more liquor, better liquor and cheaper liquor. Thousands of people, no doubt, saw only the humorous side of the matter and cast their ballots as a pure matter of fun. The vote had no meaning and in the general election will prove itself to be a fake of the first order.—Charity and Children.
