## FROM MARS HILL

Miss Sibylde Wilson, Mrs. Wilson and Mrs. Davis of New Bern, are guests of Mrs. J. R. Owen this week.

Miss Hattie Wharton of Bedford, Va., and Mrs. Esther Ponder of Richmond, Va., are here with their mother, Mrs. Elizabeth Wharton, for their vacation.

Professor and Mrs. P. L. Elliott and Professor and Mrs. W. M. Grubbs motored over to Blue Ridge one day last week to visit Miss Nora Kelly, who is camp nurse at the E. M. C. A. there this summer.

Mr. John Ammons and family are spending this week with friends and relatives in Virginia.

Master Joe Freeman of Hendersonville is visiting his aunt, Mrs. E. C. Coates, this week.

Mrs. J. W. Huff's week-end visitors were Mr. and Mrs. E. E. Nicoll and children, Elizabeth, Frances and Eugene, of Greenville, S. C.

Mr. Albert Felts of Florida is a guest at the Gibbs House.

Judge John McCall of Memphis, who is spending the summer at Ridgecrest, was on "The Hill" last week visiting his sister, "Mother Millstead" at the Boys Home.

Miss Gladys Johnson, who has been studying in New York, came home last week for a visit with her parents, Dr. and Mrs. W. N. Johnson.

Miss Elizabeth Anderson, who has been teaching at Hills, is home for awhile with her parents, Mr. and Mrs. John Anderson.

Professor and Mrs. P. L. Elliott have gone to Robbinville for a week's trip with relatives.

Little Miss Evelyn Wilson of Bryson City has been spending a few weeks with her aunt, Mrs. Pat Colville.

Quite a number of Mars Hill folks went over to Asheville last week for the Rhododendron Festival, and reported a fine time.

Rosecoe Phillips, who has been attending Furman University in Greenville, S. C., is home for the summer.

Little Miss Louise Gibbs spent last week with her uncle in Asheville.

The most interesting place on Main Street now is the "up-to-date" filling station which has been remodeled from a building known as the Edwards Building. It is located on the corner next to Miss Cheta Edward's home and just across from the cafe.

Another change on "The Hill" is the dissolution of the Frye Huff and Wells. Mr. Wells has been working in Marshall for several weeks and at present Mr. Frye is expected to be back in the market.

Mr. R. C. Gibbs went down to Nashville last week and brought back with him his attractive little grand daughter, Katherine Gene Wilkins.

Mrs. P. C. Stringfield and children made a trip to Rutherfordton for the week-end.

The four Mars Hill children who had their tonsils removed last week at the Aston Park Hospital were: Mary Stringfield, Mildred Lucille Euston, John B. Anderson and Charles Bruce Boddie. They are all getting along nicely.

Terry Wood Gibbs has returned from a trip to Richmond, Baltimore, Washington and other places of interest.

Mr. Thomas Murray who has been confined to his room for the last few weeks is reported to be about the same. His daughter, Mrs. Corrie Clark of Blomington is with him this week.

Mr. John Anderson and family have recently moved from the Mars Hill home from 20th county.

At the other end of the Mars Hill road, the Mars Hill and Hill is an all day visitation from all parts of the county, the meeting being the State E. Y. W. O. Convention. The boys' dormitories have been given over to the use of the visiting girls, and the community spirit of the Mars Hill is being shown in a pleasant manner.

## Cows Need Attention During Hot Weather

To maintain high milk production during the summer, it is necessary that the dairy cow have sufficient feed, plenty of shade and a good supply of fresh water.

"As the summer advances the grass gets dry and short and the content changes from high protein and low fiber to low protein and high fiber," says J. A. Arcey, extension dairymen at State College. "This condition necessitates the feeding of more grain with a high protein content together with silage or a cereal crop. Grain feeding during this period should be as heavy as during the winter months."

Hot weather will generally decrease milk production and Mr. Arcey suggests that the animals have ample shade during the hot part of the day. Around cities, where the pastures and lounging lots are small, he advises that the milking herd be stabled during the middle of the day.

Flies are also a source of great annoyance to cows in summer, and Mr. Arcey says unless some method is used to combat them the best results from the herd cannot be obtained. Flies are controlled easiest by destroying the breeding places, he says. Stalls and pits should be cleaned at least once each week and the manure hauled from the barn direct to the field. Any accumulation of litter or garbage furnishes ideal breeding places for flies and should be cleaned up as often as possible.

Because it is impossible to destroy all flies in the larva stage by cleaning up the breeding places, it is further necessary to use poison fly traps and sprays to kill off the younger brood after hatching, recommends Mr. Arcey.

## SANDY MUSH MAN SHOT

While R. P. Smith, 60 year old tenant farmer of Sandy Mush township, was reported at Aston Park hospital last night as recovering from a pistol bullet wound in his back, A. P. "Duke" Duckett, 37, his neighbor and landlord, was in the Buncombe County jail charged with the shooting.

The bullet entered the right side of Smith's back, a short distance from the spine and just below the shoulder blade, ranging to the left toward the heart. The wound was considered serious, but hospital authorities said Smith likely would recover unless complications set in.

The shooting occurred shortly before 10 o'clock in a field near the head of Big Sandy Mush where Smith was at work. There were no known eye witnesses and the principals told conflicting stories of the trouble which precipitated it.

Smith told Deputy Sheriff G. B. Crook and Dave Snelson, who investigated, arrested Duckett and brought Smith to the hospital that Duckett had come to him declaring that he would kill him. He said he struggled with Duckett to prevent him from drawing a pistol, but seeing Duckett had gotten his gun, he tried to hide behind an apple tree. He said Duckett shot him while his back was turned. He intimated that Duckett was trying to run him away since he had a crop worked and going. He declared Duckett was angered because he (Smith) refused to work for him at \$1 a day, but demanded \$1.50.

Duckett talked freely to newspaper men and to officers after he had been taken to jail. He said he went to a spring near where Smith was working to get a drink of water. He declared he did not know Smith was in the field, but seeing him, he went up to where Smith was working, sat down in the shade and started talking to him. He said Smith had contracted with him some time ago to help him cut wheat at \$1 and that he told Smith he was ready to cut the grain. He said Smith refused to carry out the purported contract and also claimed that Duckett owed him money.

Duckett said he remonstrated whereupon Smith, standing up with a hoe in his hand, cursed him and struck at him with the hoe. Duckett said he warded off the blow with his left arm and as he rose to his feet and retreated, Smith struck at him several times. He said he reached for his gun and as Smith saw it, he turned to run. Duckett said he fired one shot. He exhibited a skin red and bruised place on his left arm and an injured finger on the hand to support his claim that he had been attacked.

Officers said they learned that after the shooting, Smith had walked a considerable distance, shouted to a neighbor and was taken to the neighbor's home until they arrived. They said they found Duckett at his home about three miles distant. He went with them to the field and gave his version of the shooting.

Duckett said Smith had been a tenant on his farm since April. He said he did not know where Smith came from and added that Smith worked alone. Duckett is well known in his section of the county and is an extensive land holder. He said he is a game warden.

## "WORLD NEWS" IN BRIEF

Contributed by the Carolinas District Office, United States Department of Commerce

**Paupers Exports Continue in Substantial Quantity.** American "best sellers" as well as other books and pamphlets of various kinds continued to find a good market abroad during the first three months of 1930, according to the latest statistics from the Department of Commerce.

**Washington—England—South American Radiophone Service Inaugurated.** Radiotelephone service between England, Scotland and Wales and Argentina, Chile and Uruguay was inaugurated May 7, according to the Communications Section, Department of Commerce. The new circuit is a combination of land telephone lines of the British General Post Office in the United Kingdom, the Department of Posts, Telephones and Telegraphs in France, and the Compania Telefonica Nacional de Espana land lines and radio stations in Spain.

**Leningrad—Completion Of Largest Rayon Factory In Europe Claimed By Soviets.** A new rayon factory, claimed by the Soviets to be the largest in Europe, has recently been completed near Leningrad, according to a report appearing in *Isvestia*, Soviet official newspaper, transmitted to the Department of Commerce.

**Manila—Philippine Lumber Trade Experiences Active Year.** Taken as a whole, the Philippine lumber trade had a very active year, in 1929 both in domestic and export business, according to a trade review received in the Lumber Division, Department of Commerce, from Trade Commissioner Howard.

Willard Rector and Bailey Rice have asked for a second primary and same will be held July 5th with Rector against Ramsey for Sheriff, and Bailey Rice against the 3 high men—McKinney, English and Wilds, for Commissioner. A second primary is not necessary—the high man should be the party nominee—but these men have demanded that one be held, and of course we again ask that all good citizens that believe in the high man having it, whether you voted for us in first primary or not, to again go to the polls on Saturday, July 5th, and vote for us in such decided numbers that never again will the low man have the nerve to ask that this added expense and trouble be put on the tax payers of Madison County.

The three high men for Commissioners are friends and if elected, can and will get along together—one from the upper part—one from the center and one from the lower part of the county—well and properly located to be able to look after the whole County and we each ask our special friends to vote for all three. The low man will be out of harmony with either two. Vote for—
