BOOND PAGE

CAL GRIT GRINDS EDITED BY THE COUNTY AGENT Let us grow clover and grass on the hill;

While intensely the levels and flats we till. The cows and hens will settle our daily bill; While the beeves, sheep and tobacco the coffers fill. And, when orchard, garden and sty the larder fill, Then, with a smile, will Mary greet her Bill.

CLUB BOYS TO CAMP- makes a good feed to carry On Monday, July 7, the 4-H | cattle thru the winter and the Club boys from Madison stock like it. Millet will al-County go to the 4-H Club so make-itself within 60 days. Camp on the Swannanoa. This It is not as desirable a hay camp is an annual affair. Only crop as either of the two nama regularly enrolled member ed above but will make feed.

of a 4-H Club is entitled to attend. At this camp a pro- some hay for next winter. ingram of play and study is followed. This program is in charge of the Extension forces of North Carolina,

This year the boys from Buncombe and Madison counties attend camp at the same time. We expect around 10 boys to attend from this county. At the camp are cottages, a kitchen, a playground, a swimming pool. A good time net the grower between 9 and is anticipated.

WHAT ABOUT A HAY CROP-The meadows have been seriously damaged by the continued dry weather. This means a short hay crop. Some farmers have been asking about planting a crop to grow for hay. Several are a-Vailable.

be grown are soybeans (an early variety), sudan grass, three in the order given. Virginia soybans sown up until the middle of July will make more Dairy last week. a hay crop. They will not ban hay in feeding value and provements. N e w freezers

Let's get busy and make profitable.

SHIPPING LAMBS-We (expect to ship a car of lambs either July 12th. or July 19th.

Nearly enough for a single car signed up at the date of writing this, July 1, and we know of others that will ship. These lambs will be shipped, probably, to Jersey City. If the price does not change previous to shipping they should 10 cents per pound here. If

we can get enough for a double deck car the expense of shipping will decrease and the net returns to the farmer increase. If interested get in touch with the county agent, either in person or thru the mail, at once.

THE CREAM MARKET-

In the list of crops that can Often we are asked if the cream market is permanent. We were interested, the more millet. We would rank these because of this oft repeated question, at some information we secured while at the Bilt. Mr. Fried, who is in charge make the quantity they would of the creamery, gave us this have made if sown earlier but information. Mr. Fried told will be worth while. There us that they had recently is no hay that outranks soy-spent over \$10,000 in im-

The butter output from the dairy has increased over onethird in the last year. Their butter is used by a large number of high class hotels, hotels that cater to a particular trade which demands the best. This fact alone shows

that the business is expanding. The ice cream business, in the last 27 months, according to Mr. Fried has grown 500%. Ice cream is shipped as far as Charlotte. Neighboring towns of Asheville are using Biltmore ice cream. The ice cream put out by this company carries 13% butter fat against about 10% of other commercial creams. There is 40% solid matter in the Biltmore ice cream against 36% of solid in other commercial creams. The ice cream of Biltmore is of greater food value and also more tasty because of the increased fat content and the large amount of solid matter. Also real fruits

are used in making this ice cream rather than using fruit juices, another thing that makes to a more desirable cream.

Another fact that does not interest Madison County fardirectly but that go

Prying Professor Found Simple Way Measure Fat Content of Cream; **Cream Separator Work of** Swedish Inventor.
