### THE "WIZARD" INVENTOR

(Continued from First Page)  
 million lamps were made with these filaments. But today we have the tungsten filament which is far superior.

In a less serious vein, what was said to be Edison's first invention, even before he reached his teens, concerned chemistry and aviation. Knowing that lighter-than-air gases had a tendency to ascend, he reasoned that he could make Michael Gates, a playmate, fly by giving him a large dose of Seidlitz powder. Michael took the powder but failed to rise, and Thomas's mental distress was exceeded only by Michael's physical discomfort.

As proof that Edison improved in his methods as he grew older, his too-numerous-to-mention patents taken out in this country are augmented by some 1,240 in 34 foreign countries. The noted inventor holds the Congressional Medal of Honor and decorations from almost every country in the world. It is said that during the World war he contributed as much as any other man to the improved detection of German submarines. But he accomplished many other things toward winning the war.

Now, at the age of 83, Edison is busily engaged on his Florida farm developing rubber from various weeds and trees in an attempt to develop a cheap, practical, dependable domestic rubber that will make this country independent of others in time of war or

Edison's first wife, Mary Stillwell, whom he married in 1878, died in 1884, leaving three children. He was married again in 1886 to Mina Miller, and there have been two children by this union.

## A Sour Stomach

In the same time it takes a dose of soda to bring a little temporary relief of gas and sour stomach, Phillips Milk of Magnesia has acidity completely checked, and the digestive organs all tranquillized. Once you have tried this form of relief you will cease to worry about your diet and experience a new freedom in eating.

This pleasant preparation is just as good for children, too. Use it whenever coated tongue or fetid breath signals need of a sweetener. Physicians will tell you that every spoonful of Phillips' Milk of Magnesia neutralizes many times its volume in acid. Get the genuine, the name Phillips is important. Imitations do not act the same!

**Are You Ready**

**When your Children Cry for It**

Baby has little upsets at times. All your care cannot prevent them. But you can be prepared. Then you can do what any experienced nurse would do—give a few drops of plain Castoria. No sooner done than Baby is soothed; relief is just a matter of moments. Yet you have saved your child without use of a single harmful drug; Castoria is vegetable. So it's safe to use as often as an infant has any little pain you cannot pat away. And it's always ready for the crueler pangs of colic, or constipation, or diarrhea; effective, too, for older children. Twenty-five million bottles were bought last year.
