MARSHALL RED TORNADO TO BATTLE WALNUT HIGH FRIDAY

FOR BOTH HIGH SCHOOLS

The most important game of the year, to both the participating athletes and the fans, will be that next Friday, Oct. 25, when the Marshall High school Red Tornado and the Walnut High School football team meets on the Walnut grid. These two teams have had a friendly rivalry for many years that is unsurpassed in this section of the country, and this rivalry is not always friendly among the spectators. Each school believes that an irresistable force will meet an immovable object.

Coach Wilkie, of Marshall reports a full team of weterans, and the hard driving ability of Tweed, the end running of Worley and Bradburn, the uncanny passing ability of Robinson, coupled with the hard driving of a well balanced and not too light line, should give Marshall an edge over the opposition. According to statistics of games with Spruce Pine and Mars Hill, Marshall has the edge there.

The largest crowd to witness a high school game in this section, is expected to see this game ..

Several Hundred Head of Cattle Sold In Madison

During the last two weeks many hundred head of cattle have been shipped out of Madison county. The early October freeze and dry weathen caused the cattle to be sold ear-lier. A fairly good price has been paid for all cattle this fall. The quality of steers is good showing breeding and condition us to the growing season.

The beef cattle brought farmers more money than any other live-

stock enterprise. There was a total of 30 carloads Marshall.

COUNTY AGENT TO COOPERATE

At the last meeting of the Civitan Club, Friday of last week at the French Broad hotel, the matter of a canning plant for Marshall was brought up and discussed and received the hearty endorsement of the club. Previous to that meeting, Mr. Galloway, of Tryon, N. C., was in Marshall and consulted some of the leading business men with reference to operating such a plant in Marshall in the summer and fall as a branch of a similar concern now being operated in Florida. It was brought out that Mr. Galloway seemed favorably impressed with Marshall is this year a student at Carson- North Carolina Experiment Station, as a location for such a plant provided a suitable building could Newman College in Tennessee. be obtained. A discussion led to the statement that such a building is already in Marshall. A live committee of the club Wreck On Marshall was named to take the matter up with the interested parties and do all in their power to bring this industry to Marshall. Such a plant would be used to can tomatoes, corn, beans, apples, and other products which can easily be produced in Madison County, and some which goes to waste for want of such a plant. Moreover, by the cooperation of the county agent, who heartily endorsed the idea, the farmers would be instructed on the Marshall-Hot Springs highand assisted in planting such crops as would supply the canning plant for the season of the year desired. It is hoped that before another issue of this paper, something definite along truck, driven by Rothie Wilson, collided with a George truck from
