4-H Banquet— (Continued from Page One)

of the Mars Hill Senior 4-H Club, then entertained the audience with a selection on the piano.
Miss Pat Proffitt, of the Mars Hill club, told of the many benefits and lessons she had learned from 4-H training. Olin Jarret spoke of the benefits learned from the boys' angle and told of his experiences at 4-H meetings in Raleigh and Manteo.
Mrs. E. C. Clarke, of Marshall RFD 1, expressed the many benefits the family has from 4-H activities. Mrs. Clarke, who has four sons who are active in 4-H work, told of the individual profits which could be gained through 4-H projects.
P. R. Elam, former county agent and 4-H leader, spoke on "Local Support for 4-H Clubs." Mr. Elam's remarks were timely and informative. He urged more "advertising" of 4-H activities and stressed the importance of local backing of the 4-H Club work. He praised the work of the extension department and the leaders of Madison County and expressed optimism at the progress being made by the various clubs.
Miss Mary Harris, Western District Home Demonstration Agent was recognized and spoke briefly of the fine experiences she has had with 4-H and Home Demonstration Clubs.
Miss Harris, Mrs. Ramsey and Donald Colvin, Madison County 4-H leader then presented awards and medals to the boys and girls for various projects. Those receiving awards are as follows:
Wayne Clarke, meat animals and achievement; E. B. Proffitt, field crops; Cecil Clarke, poultry; Bruce Briggs, leadership; Herschel McDarris, meat animal; Olin Jarrett Jr., public speaking; Mr. Ray Tweed, alumni recognition.
Emma Jean Allen, canning; Lola West, clothing; Dora Lee Edwards, home improvements; Agnes Mathus, poultry; Pat Proffitt, recreation and rural arts; and Glenna Ponder, public speaking.
The banquet was concluded with the Marshall High School Octette, under the leadership of Mrs. Harry Woodson, singing the 4-H Club songs.

BASEBALL ALIBIS NOT NEEDED

From several major league baseball training camps, the alibis are already beginning to wail. This is nothing new, although it is a more prevalent custom among football coaches than it has been among big league baseball managers.
In the American League there are six new managers of the eight preparing to start the season. We dislike seeing any new manager, therefore any one of these six, starting off his career by complaining and wailing about his troubles. If the manager himself develops this theme, it is obvious that his players will echo it and that before too long, everybody will be feeling sorry for the team and its chances.
The annual mopings of football coaches we can take because we expect it and take it with a smile. However, we like to see baseball managers go out to win, and to go out with hustle and determination and spirit. This is the tradition in major league baseball and we like it that way — as do millions of baseball fans everywhere.
New managers who begin their terms with alibis, we do not like. In our opinion, this is strictly for the birds, as it destroys interest in the game, the spirit of the team affected and the general atmosphere in the spring training camps as a whole. Alibis in baseball we can do without, especially before the season begins.

Labor is the only successful collector of the living the world owes to humanity.

Be sure you are right and then go ahead — but don't tear up your return ticket.

The chap who is always blazing with anger will never set the business world on fire.

One Killed— (Continued from page one)

of Barnard.
Dr. R. P. Terry, coroner, said Wilson died of a crushed skull. He empaneled a jury at 10 a. m., Tuesday at the Courthouse in Asheville and an inquest was held at 2:30 p. m.
Harrison, who investigated with Cpl. J. A. Sullins and Patrolman P. S. Bagwell Jr., of Marshall, said Roberts is being held for the inquest under bond of \$1,000.
Officers said the accident occurred in Buncombe about 13 and a half miles north of Asheville and eight-tenths of a mile from the Madison County line.
Harrison said the car, apparently being driven at a high rate of speed north on 25-70, went into a ditch on the east side of the highway. The vehicle traveled approximately 92 feet in the ditch and then struck a large boulder protruding from a rocky bank.
The force of the impact with the boulder caused the car to swerve back onto the highway. It then traveled 129 feet farther and careened to the right and up a cliff.
Harrison said the occupants of the car remained in the vehicle and that the car was a total loss.
The officer said Roberts suffered minor scratches and bruises and was given dispensary treatment at Memorial Mission Hospital.
Wilson is survived by the parents, Mr. and Mrs. Baxter Wilson of Barnard; three sisters, Mrs. C. A. Hensley of Marshall, Mrs. Arnold Roberts and Mrs. Don Lefford of Barnard; and five brothers, Preston of Marshall, RFD 1, Pvt. Monroe Wilson of Camp Kilmer, N. J., and Richard, Troy and Roy of the home.
He served two years in the Army, 18 months of which was spent in Germany. He was discharged last January 9.
Funeral services will be held this (Thursday) afternoon at 2 o'clock in the Anderson Branch Free Will Baptist Church. The Rev. Walter Wilson will officiate.
Pallbearers will be Earl Freeman, Rex Freeman, Evan Payne, Fred Freeman, Bernard Farmer, Charles Freeman.

Red Cross— (Continued from Page One)

Francis Ray; Long Branch, N. C. Faulkner; Pleasant Gap, Mrs. Howell; Walnut, Ezra Burnette; White Rock, Solomon Thomas; Paint Fork, Paul Carter.

The above named persons can pick up their membership cards, Red Cross pins, and contribution blanks at The News-Record office any day during the month of March between the hours of 9 and 4.

Mr. Wade Huey has been appointed to cover Baptist Churches in Madison County and all contributions from Baptist churches should be mailed to Wade Huey, Box K, Marshall, N. C.

Those in the county wishing to make their contributions and are not contacted, may mail them to the chairman of Funds, R. N. Barefoot, Marshall, N. C. Also Mr. Barefoot can be reached by phones 2046, 3941, or at the Methodist Church office over the Citizens Bank.

SCIENTISTS FIND SIX NEW VIRUSES

United States Public Health scientists have found six new disease-causing viruses. They are now tentatively designated the APC agents. These agents are believed to be responsible for a number of hitherto undiagnosed diseases and some diseases which had been thought to be caused by other things. One disease which has already been traced to one of these agents is a type of pneumonia—a type which has been causing such trouble in Army camps.

the required amount of money by subscription. That the following organizations be contacted through the individuals represented at the meeting: American Legion, Disabled American Veterans, Civitan, Merchants Association, the town aldermen, the Lions Club, the PTA, the church organizations, and any other.
3. It was recognized that a professional recreation worker could recruit and train volunteers for a great many phases of the program, using people with special skills as part of the staff.
4. An immediate program for the summer was suggested as follows:
a. Playground—Mornings, 9 to 11 at the school; low organized games, crafts, nature lore, etc., for children of all ages.
b. Swimming instructions—11 to 1. Arrange transportation corps for groups to use pool. To tie in with Red Cross water safety program.
c. Community ball games and activities at park and/or school playgrounds—5 to 7 p.m. Softball, women and girls. Baseball, men and boys. Volleyball, paddle tennis, croquet, horseshoes, etc.
d. "Shoppers Special"—Saturday program for children of shoppers in town, including a nursery age program. Plans can be made for Family and Community Days for fun and work at the Park site with Pool Shows and Field Day events.
5. Long range discussion included:
Facilities: a need for a survey of pool, recreation building, and park physical plant in order to determine a fair cost of finishing the work required. State and National recreation agencies are available to do such a project in an objective manner. This information was to be presented to the aldermen for their consideration — the proposed youth center on Main Street was to be looked into for further follow-up action. It was felt that encouragement should be given for the establishment of commercial recreation facilities such as bowling alleys, miniature golf, and other acceptable leisure facilities.
Finances: The need for inclusion in the Town budget an appropriation for summer or year-round recreation and long range park-pool and playground facilities.
The meeting ended with each one present to approach their respective organizations concerning the money needed for the summer program.

Three Wrecks— (Continued from Page One)

cars were badly damaged.
At 6:00, a 1949 Ford, driven by Donald Wade Hunter, of Marshall RFD 4, had a head-on collision with a Pontiac driven by a Marine. The accident occurred at Walnut Gap. Both cars were badly damaged. The Marine was arrested and pleaded guilty of driving on the wrong side of the road. He paid the fine but his car is being held at the jail here.

Patrolman A. L. Feldman investigated the Hot Springs wreck and Patrolman Bagwell investigated the other two wrecks.

These viruses are so small that they cannot be seen with the most powerful microscopes and they had been thought to be non-living. Outside of a body cell, they actually act as if they were not living. However, once inside a cell, they show their life by an ability to multiply rapidly.
The new discovery is thought to be important and doctors think that almost every one has, at one time or another been infected with one or more of these viruses.

* News For Veterans *

Persons entering the armed forces for the first time since February 1, 1955, are peacetime veterans when they leave service and, as such, are entitled only to peacetime benefits, Veterans Administration said.
Peacetime veterans, under present laws, will not be eligible for any of the benefits provided by the Korean GI Bill, nor for any wartime service benefits payable to veterans of the Korean conflict period.
Peacetime veterans may be entitled, under certain conditions, to medical and domiciliary care, disability compensation, aid for the blinded, "wheelchair" homes, servicemen's indemnity, guaranty of commercial life insurance premiums, burial expenses, burial flag, guardian-

Vote Probe— (Continued from Page One)

and November criminal terms of U. S. District Court, to handle matters for Asheville and Bryson City. There is some indication that the present jury might be retained rather than have a new jury take up the investigations, or that the present jury could continue serving another year as a special election fraud jury. Action on retaining the present jury or naming a new one will be done by Judge Warlick upon recommendation of the district attorney.

NEW USE FOR ATOMIC ENERGY

Army Chemical Corps scientists have been experimenting for several years at the Dugway Proving Grounds in Utah and have discovered a new method for preserving food. The food which has been preserved has been saved by the careful use of atomic bullets.
These bullets are only minute ones, which are used to kill micro-organisms which get into food and cause decay. The atomic bullets can also destroy food-contaminating insects and have been used with effectiveness against these.
The new preservation system is called irradiation and has been used by the Army for five years, in the current experimental program. The atomic bullets are actually highly-penetrating rays, which are emitted by elements removed from nuclear furnaces.
These elements come from the Atomic Energy Commission, of course, and were turned over to the Army for these experiments. The experiments and the new preservation process developed promise to be of great value in discovering ways to use the powerful penetrating rays which are emitted from elements which have been used for fuel in nuclear furnaces. In all probability, new uses for these rays, perhaps involved in disease prevention and cure, will be one of the major scientific trends which unfolds in coming years.

These viruses are so small that they cannot be seen with the most powerful microscopes and they had been thought to be non-living. Outside of a body cell, they actually act as if they were not living. However, once inside a cell, they show their life by an ability to multiply rapidly.
The new discovery is thought to be important and doctors think that almost every one has, at one time or another been infected with one or more of these viruses.

Gay Sprite of a Shoe for the Young in Heart

Young as your spirits . . .
gay little skim-along shoe in smooth soft white leather that wears a duo of straps—one at your toe-tip, one across your vamp. It's a sprite, easy on steps and the eyes.

ship service and appeals. Their dependents may be entitled to death compensation where the veterans die of service-connected causes.
The principal benefits and conditions are:

Medical and Dental Care—A peacetime veteran may be entitled to hospitalization, outpatient medical and dental treatment and prosthetic service, provided he was discharged under other than dishonorable conditions for a disability incurred in line of duty or is receiving compensation for a service-connected disability.

Domiciliary Care — A peacetime veteran may be entitled to domiciliary care if he meets the above eligibility requirements and is incapacitated from earning a living and has no adequate means of support.

Disability Compensation — A veteran disabled by injury or disease incurred in, or aggravated by, peacetime service may qualify for disability compensation. Discharge must have been under other than dishonorable conditions.

Monthly rates range from \$14 to \$145, depending on the degree of disability, plus statutory awards for amputations, blindness, etc., up to a maximum of \$336.

Where the disability resulted from extra-hazardous service, such as simulated warfare, the veteran may be entitled to wartime rates. These are \$17 to \$181, plus statutory awards, up to a maximum of \$420.

Veterans rated 50 percent or more disabled may be entitled to additional compensation for a wife, children, or dependent parents.

Q—I am a World War I veteran receiving monthly pension payments from VA. My uncle recently died, leaving me an inheritance of some shares of stock. Are the stock proceeds considered an income, in figuring my annual income ceiling?

A—Proceeds of the stock will not be considered as income until they are converted into cash.
