HEARD BY "POP" B. U. W. e. n. THE FARMER'S WIFE

I've been sorta "under the weather" since last week — something went wrong inside my head — now don't guess what — seems that some kinda nerve became inflamed, but I'm better as of now — someone remarked that it was probably a brain tumor hunting a brain — any way, with the help of Dr. Duck and Dr. Chapman, I'm able to be about again — really haven't heard or seen too much — I've been up home most of the time — Ruth Landers always has something to say whether it is sensible or not — she asked me yesterday which was faster: cold or heat — I told her I didn't know — she retorted quickly, "Heat, of course; anyone can catch a cold" — ug! — Polly Sue Briggs, Doris Jean McKinney and Patsy Houston told me Wednesday that they wished I'd put their names in this column but they hadn't done anything to warrant it — well, girls, by doing nothing, you have rated this column — the Athletic Banquet Friday night is really shaping up — with Charlie "Choo-Choo" Justice, the All-American, being the guest speaker — Gene Wyke will be the MC — should be a memorable occasion — the Brotherhood Ladies' Night last Friday night at the S&W Cafeteria was very enjoyable — Dr. Seymour's slides were very impressive — although the Pine Room was a bit chilly, the fine fellowship soon warmed things up — speaking of fellowship, I was a guest at the Presbyterian Fellowship supper here Wednesday night — about 60 Presbyterians were there — and I think I was the only Baptist — nevertheless, they were very nice to me and I thoroughly enjoyed the fellowship, the delicious meal and got a big "kick" out of watching Mr. Mellin's surprise when the ladies brought in a huge, three-tiered birthday cake — it was a "beaut" — and came as a complete surprise to Mr. Mellin — being a guest, I was at the "head table" sitting beside Mrs. Mellin and she got as much "kick" out of the surprise as did Mr. Mellin — the fellowship suppers are fine things — whenever 60 people get together it creates a warm and friendly fellowship otherwise missed without the suppers — if they can stand a Baptist among them, I'd like to go again sometime — Mrs. Corbett, John's mother, looked surprised when she saw me there and asked, "What are YOU doing here?" — I laughed and told her I was a "Baptist spy" — was also glad to meet Miss Hanne Sorensen, who was there — she's from Copenhagen, Denmark, and is visiting here — thanks, Sarah, for inviting me to the supper — if you want your birthday or anniversary listed on the new calendars, see a Lion now.

Before I forget it, remind me to remind you to make plans to go to the district meeting of the HD Clubs this year — in April it is — and will be in Yadway County this year at the Babbs Creek Methodist Church — there will be an announcement of it in next week's paper — you'll be surprised at the nice members you'll meet from the other two counties as well as Madison — Bucombe and Yadway, that is — wonderful cooperation in everything but with purpose, to — lunch with the ladies of the Babbs Creek Church, and — and if you are handy with your hands, the Craft Camp will be coming up a little later — some people say spring is here by the rolls, some by the date in the calendar, and so on, but by my never fail, guaranteed sign, it has arrived — at 6:10 Tuesday morning, twenty minutes before getting up time, I felt a familiar hot spot on the back of my leg — before I pushed the covers down I knew spring had come — right, a warp was drifting industriously just below my knee — don't believe I've ever been drilled in March before — but from now till November, I'll spray and sweat — so Eastern Carolina, South Carolina and Georgia are uneasy about the peach crop — so are we — two crop failures would discourage peach growers — Easter is a week from Sunday — time to shake down the old man.

The "P's" stood for the pleasures and perils while the "Q's" stood for queer and "quax" things that can happen to one while building a rock garden. This sort of gardening involves a type of adventure known to any collector because the most satisfactory rock garden contains only those rocks which are suitable. The program included specific information about the plants most successfully grown in rock gardens as well as the instructions for building the garden.
