need me as a representative of the Republican Party."

Mr. Clyde M. Roberts, chairman of the Madison County Republican Executive Committee, stated, "Our party's recommendations, properly submitted, were so completely ignored that we might as well not have had a Republican member on the board."

"Obviously, the business transaction of selecting the respective registrar and judges had already been completed prior to the organization of the board. I think all good citizens will have a ready answer as to why they want a complete list of registrars and judges of their own selections," Mr. Roberts said.

"This fits like a pattern over the way they started last election and everybody knows how that election turned out," he said.

"This is 'Democracy' in Madison County. Rest assured we plan to appeal to the State Board of Elections charging the irregular procedures of the board in its initial meeting here Saturday," Mr. Roberts concluded.

APRIL 15 SET AS DEADLINE FOR SPRING SEEDING

Now here's a message from the ASC Committee. Neville Hawkins, Chairman of the Committee, says that this is no time for farmers to let up on conservation. He thinks this is the time to build up soil reserves. Population is going to keep right on increasing. We don't know what the world situation will bring. So, he thinks it's best to be ready. Keep our farms ready for whatever may come. That means keeping the land in good condition. He points out that the Agricultural Conservation Program for 1956 is emphasizing permanent or enduring types of soil building conservation. Farmers who haven't signed up in the ACP may do so now. Just call at the local ASC Office which is located at Marshall. April 15 has been designated as the closing date for applying for and securing assistance on spring seeding practices.
