A husband decided that on his wife's birthday he'd surprise her with a new Cadillac convertible. He drove the car home and parked it in front of the house. He then went in and asked the little woman to come to the front door.

When she appeared, the husband pointed proudly to the new Cadillac and asked, "How do you like it, honey?"

Whereupon the wife turned to him and said, "What's the matter, stupid, couldn't you answer the \$64,000 question?" — Television Age.

THINKING OF OTHERS

When the clouds are hanging low And won't let the sun shine through If, on your way, you meet a friend Whom you think is kinda blue, Extend your hand and give a smile— This is not the last run mile.

A little more WE and a little less I Will help us be prepared to die.

Now-GMC gives you
a bonus of up to 3 gallons
in every tankful!

Talk about low-cost GMC ownership! With its new high-ratio cruising axle, a Blue Chip GMC pickup now gives you up to 17.8% better gas mileage. That's 3 gallons' worth of bonus miles in every filling!

And you get far better road speeds, too, from an easy-stroking, unstrained engine. In short, from a mere \$10.50 axle option, GMC now gives you the advantages of a \$125 overdrive.

Add this new gas-stretching ability to the super-efficiency of a GMC 180 hp V8 engine—to the moneysaving advantages of Hydra-Matic Drive®—and an important fact is clear:

The operation and maintenance savings of Blue Chip features can bring the overall cost of a half-ton GMC down to the level of—or below—the cheapest stripped-model truck on the market.

Of course, you'd always have preferred a Blue Chip GMC to any other truck. But now—with cost so strongly in its favor—there's no need to step down. Come in and tell us what colors you want on your GMC.
