RETIREES; DIES

Bonham, Tex. — Cecil Ruark, 70, resigned as county jailer "to take things easy." Turning in his keys, he said goodbye to fellow officers, and, to celebrate, he went hunting with his son, Johnny, that afternoon. The father and son were only a few miles south of Bonham when the elder Ruark dropped dead of a heart attack.

An excellent way to become popular is to become a good listener.

News for Veterans

A broader attack upon the "unknown" in man's major diseases will be started immediately by Veterans Administration.

VA said an enlarged medical research program will be conducted with the \$10,000,000 that Congress appropriated for fiscal year 1957, beginning July 1, 1956—\$4,300,000 more than was appropriated last year.

Most of the increased medical research will be concentrated in four areas of major diseases: 1. mental, nervous and brain diseases (neuropsychiatric); 2. heart and artery diseases (cardio-vascular); 3. cancer and leukemia; and 4. problems of aging (geriatrics).

VA also will expand its research program in tuberculosis, in the fungus diseases which resemble tuberculosis, and in the infectious diseases.

In addition, VA said, renewed emphasis will be placed on individual research projects, such as the isolation and identification of the factors which produce man's greatest killer, hypertension or high blood pressure; the cause and nature of hardening arteries (arteriosclerosis); the cause and nature of tissue changes (metabolic diseases), and the brain areas where epilepsy and related nervous disorders originate.

VA said it further plans to enlarge its cooperative study of drugs, old and new, for the treatment of specific diseases—a field in which the agency has pioneered with outstanding success because of its many hospitals, its large patient load, and its uniformity of approach.

Q—How does VA determine the date a GI insurance premium is paid? Is it the date the veteran mails his check, or is it the date VA receives the check?

A—The date of the postmark on the envelope is considered as the date the insurance premium was paid.

Q—If a veteran dies without selecting any option of payment, how will GI insurance proceeds be paid?

A—If the veteran has not selected a method of payment, the
