THE BIBLE IN RUSSIA

Moscow - The first new edition of the Russian Orthodox Bible since the Bolshevik Revolution was published early in 1956. The Orthodox Bible includes the Old and New Testaments, as well as books whose authenticity is in dispute. The volume was edited and prepared for publication by the Moscow Patriarchate of the Russian Orthodox Church, which also will publish the first comprehensive prayer book since the Soviet regime was established.

Sutton, N. C .- Kenneth Thorne 10, whose alertness averted a possible train wreck, received s shiny new bike and a \$100 savings bond at Christmas. the click-clack of the rails didn't ring true to Kenneth's ears when the eastbound mail train roared through here recently, he investigated and found a broken rail. With the westbound train due in minutes, the boy ran a quarter mile to alert a brakeman. The engineer was ordered by radio to stop his train. The bicycle and the bond came from Great North-ern Reilway President John M.

news reports recently told ry of the tallest man-m tructure in the world, which is going up near Roswell, New

A television tower near Roswell is going to be over 1600 feet high when it is completed. This will surpass the height of the present record-holder, a TV tower in Ok-lahoma, which is over 1500 feet

By comparison, the Empire State Building, in New York, is only something over 1400 feet high.

The question which comes to mind, in reading about the construction of new television tow ers, which are now pushing up safety and these towers.

No lighting system at present known to man is of much good to modern aircraft. In the case of an aircraft, say a private craft flying at 1500 feet under the weather, if it is a cloudy day and the aircraft has a fast crusing speed, it might be almost impos sible for the pilot to see the tele vision tower or the lights.

As of right now, there are limited number of television towers and their height is usually under 1000 feet. However, the construction of higher television towers and considerations of flying safety are diametrically opposed. It is certain that any development which would allow television stations to transmit with sufficient strength without erecting such high towers would be in the interest of flying safety and of those who live near television towers, who may be killed if an aircraft fell in their neighborhood.

We do not presume to know the answer to this question, although we know that private aviation associations are already objecting to authorities in Washington, and the erection of towers of over 1500 feet certainly does constitute a flying hazard of major propor-

Roll is Announced

The following perfect attend-ance and honor roll list of stu-dents has been released by Mrs. Jack V. Joyce, reporter for Spring Creek school.

PERFECT ATTENDANCE 1st grade: Gary Worley, Ron nie West, Robert Sexton, Jerry Green, Willie Faye Fowler, Glenda Fowler, Ray Duckett, Mike Duckett, Johnnie Glenn, Linde Kirkpatrick.

America's Number (1) Road Car!

Months age. Pontiac set its '57 sights on producing an engineering classic—the greatest road our in automotive history! How well did they succeed? One answer is pictured here, the all-new '57 Pontiac itself, a car so advanced in concept that other new cars

merely emphasize its outstanding design, its brilliant array of first-time features The other caseer is the public's response to this road-ruling beauty. From every quarter of the nation has come wave after wave of confirming praise! Praise for Pontiac's styling-its crisp, colorful lines and flowing contours that accent beauty built in, not hung out

Praise for new Level-Line Ride, the advanced suspension system that gradies you in cloud-soft niert. Praise for Pontine's same of handling! Praise for the brink and eager respon of its all new Strate Streak V-8 engine! And underlying this fremendous voice of approval is a confidence fall in a cur which has undergone the greatest road test in history . . . Pontiac's graeling 100,000-Mile Marathon Bunl Yes, this year it's Pontiac all the way! Come in and see iff Come take the wheel of America's No. I Road Carl
