Marshall's first football game was successful as far as victory was concerned and I was well pleased with the Tornadoes — but — the team still must be tested — Edneyville had some mighty big boys but they were inexperienced — I'm a little worried over "bench strength" but hope they'll come out of the kinks — glad Ronnie Hensley wasn't seriously injured in the wreck Monday night — this week it's Walnut vs. Marshall — this game always carries a great deal of interest regardless of who wins — I'll string a long with Marshall predicting a second victory of the new season for the Tornadoes — I thought the band and majorettes were fine last Friday night — performed well without their director, John Lackey — Pat Houston is a very cute "leader" — ditto for the other gals — the cheerleaders did well, too — traffic in town on Labor Day was terrific — I celebrated Labor Day by laboring from 8:00 till 3:30 — went home where it was cool and quiet and enjoyed relaxing — Hot Springs and Mars Hill both were impressive in their first games although both teams were defeated — seems that practically all interest in baseball (Madison County League) has played out now that football has begun — "Speedy" Ledford and Jack Ramsey report fine times at Darlington "500" on Monday but Speedy got a little too much sunshine — he's pretty red around the neck — Jack's an old hand at the event and goes prepared — the fellows had to walk for more than two miles due to the congested traffic at the race track — and the temperature was over 100 degrees — whew — I'd rather stay here than fight a crowd of about 100,000 — Greenwood is still leading the pack with Calvin a close second in "naming the tunes" — Jean Stines gave them a scare Monday, though, as she just about beat them both — Allen Duckett is also pretty good at the "game" — ditto Luellen Waldrop — Tommie White tried Monday night but found he was in the wrong league — Emma's improving — Coley's real good — it's pretty hard to think of correct titles of songs — they all know the tunes and words but Greenwood and Calvin usually get there first — James Allen and Earl Edmonds are just about "equal" over a checker board — Charlie Sawyer's a little afraid of a live mike in the pressbox — he wanted me to "turn it off" every time he spoke — or scratched.
