Walnut Observing Letter Writing Week This Week

International Letter Writing Week will be celebrated in Walnut during this week (October 5 to 11), Postmaster Clyde McClure announced.

Twenty-one years ago, realizing the importance of written communication, the Post Office Department joined in the observance of an annual letter writing week — an event celebrated to emphasize the meaning and value of letter writing as a link between people throughout the world.

Postmaster McClure explained that by participating in both International Letter Writing Week and National Letter Writing Week this worthwhile objective is promoted between all peoples everywhere.

"As we all know so well," Mr. McClure said, "a personal letter is next to an actual visit the most intimate means we have to man beings. Letters between our man beings. Letters between our citizens and between peoples of different nations are a sure method of establishing friendly relationships and understandings. I urge all citizens of Walnut to join in this celebration of International Letter Writing Week. And at the same time, don't overlook your friends and relatives in America. Write them a letter too!"
