May I share with you a wonderthe good fortune to be Madison County's delegate to State Wildlife Camp, which was held at the 4-H Camp Millstone, near Rockine'nam.

Although our time spent there was a bit shorter than we usually

"Madison County 4-H girls are missing an opportunity," decided packed full to the brim with interesting things to do and see.

This week is conducted by the North Carolina Extension Service and the North Carolina Wildlife Resources Commission, and is sponsored by the Federal Cartridge Corporation. To these sponsore and friends, we 4-H'ers owe a nast. great debt of gratitude. Without them we would not be able to have this wonderful experience of see-ing and learning more about the great resources of our state. The classes that were conduct-ed on Soil, Water, Widdlife, and there were any questions someone Forest Resources were so interest-ing that they made us feel great

pride in our state. We all felt that we just didn't have enough time to learn as much shout this as we would like. I'm sure you have all seen and

admired the outstanding covers and pictures on our State Wildlife Magazine. We had the wonderful opportunity of having Mr. Jack Dermid, who makes these

pictures, show us his methods It

Directors, Public Urged To Attend Meet At Courthouse

Officials of the Madison County Fund Organization met last Thursday afternoon at the REA Building where various phases of the past, present and future of the United Fund setup for Madison County were discussed.

After hearing reports concerning the present status of United the courthouse on Thursday night, August 27, at 7:30 o'clock, at which time all directors, officials and the public are urged to attend. The future of the United Fund movement might be decided at the meeting, it was surmised.

MORE MONEY WHEN RIPE

The outlook for a good tobacco crop in Madison County is excellent. Plants were early and the early growing season was the best experienced in the county in many years. There has been adequate rain in most sections for an excellent growth on the tobacco crop. A very important factor in tobacco production is now coming up. A good early crop of tobacco brings with it some problems which farmers are urged to recognize and to use practices which will result in the highest dollar income per acre of tobacco, stated Harry G. Silver, County Agent.

Announcement was made this sek by Burlington Industries Experimental results conducted with burley tobacco in Agnicultuthat Mr. Sam Homewood, former ral Experiment Stations through out the burley belt have prove that keeping tobacco topped and suckered results in the highest Pacific Mills, had been promoted to plant manager of the Raeford yield possible from burley tobacco Mr. Homewood recently was Many tobacco farmers from vartransferred from Hot Springs to ious sections of the burley belt have started leaving the blooms on tobacco until harvest time. Football Practice Begins In County Schools This Week

Marshall Squad Very Light; Dr. Morris Serving In **Physicals Take** Spotlight

Football practice at Marshall High Schopl got underway on Tuesday of this week with two practice sessions scheduled daily until the opening of school, Coach Howard Barnwell stated.

Medical examinations were given by Dr. W. A. Sams and Dr. Lee Knight on Tuesday afternoon. Coach Barnwell said that any-

one who plans to play football and did not take the examinations on Tuesday may do so by reporting

to Dr. Same' affice. The morning practices are be-ing held at ten o'clock and the other period will be either an afternoon or night session, Barnwall well said. explained

All prospects who have not re-ported are asked to do so imme-diately since the first game is only two weeks away. Marshall will play Ednoyville here on the Island at 8 p. m., August 28 in . 171

the opening game. Coach Barawell said that prec-tics sessions are for both the Wal-nut and Marshall school district boys sine plan to play football

As of Tuesday afternoon, only manifolites had reported for nelles. However, Conch Barr
