Your Social Security

LUCILLE M. RICKMAN
Field Representative
Madison County

You do not have to retire completely in order to get social security benefits after you reach retirement age. If entitled, you can receive benefits for every month of any year you do not earn more than \$1200. And you may receive benefits for one or more months if you do not earn over \$2080 during the year. Moreover, regardless of how high your earnings are, you may receive a benefit payment for any month you neither earn over \$100 in wages nor "render substantial services" (that is, are active) in a business of your own. After you reach age 72, benefits are payable regardless of your earnings. These and other social security benefits are not automatic, however. An application for the benefits must be filed with your social security office, or the representative, promptly or else some benefits may be lost. To avoid any loss of benefits, I urge everyone to get in touch with us 2 or 3 months before he reaches retirement age. "Inquire before you retire." And then — to help us help you get your benefits started without undue delay — file your claim about six weeks before you reach retirement age and/or retire. A representative of the Social Security Administration will be in the courthouse in Marshall on the third Tuesday in June, beginning at 9:30 a. m., to give information and assistance to Madison County residents on social security matters.
