Injured in Wreck

Miss Ethel Townsend

Miss Townsend Injured in Car Wreck Thursday

Miss Ethel Townsend, popular home economics agent of Madison County, suffered head and leg injuries last Thursday night when her car, a 1960 Chevrolet, struck another vehicle from behind on N. C. Highway 63, some two and a half miles north of Leicester.

State Highway Patrolman E. H. Jenkins listed the driver of the second vehicle as 32-year-old Robert Vernon Penland of Leicester RFD 2. Jenkins said that Penland had stopped prior to the accident to talk to his brother who was standing beside the road.

Miss Townsend, the patrolman said, came over the knoll of a hill just as Penland was leaving his parked position on the highway. The impact knocked Penland's auto off the highway and down a 75-foot embankment. Both cars were badly damaged.

Miss Townsend was admitted to an Asheville hospital with a laceration of the forehead and a leg injury. Penland was given dispensary treatment at the same hospital and released.

Miss Townsend was able to return to Marshall the first of this week and will resume her duties possibly next week.

TAX OFFICERS NOW CHECKING IN COUNTY

Officers of the United States Internal Revenue Service are now making a compliance survey of many Madison County business firms to determine whether taxpayers are aware of a complying with Federal tax laws requiring filing of various types of tax returns.

J. E. Wall, District Director at Greensboro, said that revenue officers conducting the survey are checking on filing of tax returns covering business income, employers' Social Security, withholding tax and excise tax. Wall added that the survey should be completed within about one month.

Director Wall emphasized that the survey is not designed to audit tax returns but to determine the public's awareness, and the extent of compliance with the filing requirements of the Internal Revenue laws.

Wall pointed out that compliance surveys of this type are required by the Internal Revenue Code and are a part of the Service's tax enforcement program.

The survey will probably bring to light some instances of delinquency in filing required returns. Wall said, but added that most of these will be the result of honest misunderstanding or oversight.

In the event that any cases of flagrant abuses are discovered, however, they will be dealt with according to the Internal Revenue laws.

The clinics will be conducted by a licensed veterinarian of Burnsville, and a charge of one dollar per animal vaccinated will be made. Dogs should be vaccinated by the time they attain the age of six months; one injection will afford protection against rabies for three years.

Wool Incentive Payment Rates Are Announced

Payment to wool producers under the ASC wool incentive program will begin soon. According to Neville Hawkins, Chairman, Madison County Agricultural Stabilization and Conservation Committee, shorn wool payments for the 1969 marketing year will amount to 43.2 percent of the net return each producer from the sale of wool during the 1969 marketing year.

The payment rate on the sale of unshorn lambs to compensate for the wool sold with the lamb will be 75 cents per hundred weight or live animals sold.

According to Hawkins, these payments will be made only on shorn wool and unshorn lambs for market April 1, 1969, and March 31, 1969.

The shorn wool payment rate is the percentage required to raise the average price producers received for their wool during the marketing year up to the incentive level of 62 cents. This method is designed to encourage producers to do a good job of marketing their wool as well as to increase domestic wool production.
