MAINTAINING OUR DIGNITY

It is sometimes difficult to maintain one's dignity. In fact, it is even hard to define the word. What exactly is dignity?

The generally-accepted definition of the word is that dignity is a quality of character which wins the admiration and respect of others. It is also associated with being noble.

To us, dignity is not something reserved for the upper crust, so to speak. It is a trait that many uneducated and impoverished men and women acquire. It is always gratifying to see one who has not made a million dollars or who has not been fortunate enough to acquire an expensive education, nevertheless conduct himself with quiet dignity.

Dignity is the opposite of loudness and common behavior. It is a quality which prevents an individual who possesses it from intruding.

Genuine people do not "affect" dignity. This is phony. Dignity,

Your Social Security Field Representative

The Asheville office of the Social Security Administration announced today that their representative, D. H. Butler, would not visit Marshall on Wednesday, February 22, since that day is a national holiday.

Mr. Butler will continue with his Wednesday visits to Marshall effective with March 1, and will be available at the courthouse to help Madison County residents with social security matters.

ON GEORGE WASHINGTON

The man who was most influential in the successful founding of the United States was, of course, George Washington, whose birthday anniversary is observed this month.

A great general, a great President, a great engineer, and a great American — George Washington left an imprint which is visible in the freedom and enjoyment of life of every American.

Washington not only secured the freedom of this country from England, but he established many of the principles of government, as our first President. His high standards of conduct, morality, ethics, and statesmanship were and are today an example for Americans in public office. Indeed, this is a proper time to stop and reflect upon the character, courage and determination of Washington — which is so much in need in government today. Because Washington had all these qualities, we are enjoying the fruits of liberty and strength.

In recent years historians have come to the conclusion that the more they study George Washington, the greater he actually emerges. Had the country not possessed Washington, it is highly doubtful if the Revolution would have succeeded, and thus the independence of the United States today might not have been.

So, then, we might as well keep in mind the dignity and character which we should like to exemplify. Whether we be a simple laborer, or a wealthy executive, we can walk the streets with head high, a noble bearing and conduct our lives with dignity and principle. And if we do this, with faith, and dedication to what one believes right, the storms and bitter blows of life will come and go and nothing can destroy that hard-to-define quality — the dignity of the individual human being.

And, meanwhile, life will have been more pleasant, more will have been accomplished, and a better example set for those around you. Dignity is worth the effort.

Shrinks Hemorrhoids Without Surgery

Stops Itch—Relieves Pain
For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain — without surgery. In case after case, while gently relieving pain, actual reduction (shrinkage) took place. Most amazing of all — results were so thorough that sufferers made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Dyne®) — a discovery of a world-famous research institute. This substance is now available in suppository or ointment form called Preparation H®. At all drug counters.
