HEARD AND SEEN By "POP"

Much to my surprise (and also a surprise to the office staff), my father, who is now 82 years young, rode down to Marshall Tuesday morning with Mrs. Frances Ramsey — he hasn't been too frisky lately but he seemed to be in high spirits on his arrival here — needless to say, we were glad to see him — "I thought I'd surprise you and when Mrs. Ramsey kindly offered to bring me down, I decided to come," he said with a twinkle in his eyes — it was obvious that he was pleased, both for being able to make the trip and for pulling the surprise — after he refused to "go to work," I asked him if he would write an editorial — he also refused to do this — said he came down to see some of his friends — not to work — he sat in the office and talked for quite a spell and then decided to go up to Fain and Mary Ruth's apartment (above office) and rest awhile — after a nice rest, he was ready and rarin' to walk down the street — Gwendolyn, my secretary, accompanied him down the street — (I was out at the time) — she said he stopped at nearly every place and thoroughly enjoyed speaking and shaking hands with old acquaintances — I intercepted them down the street and took him to dinner at the Rock Cafe — he enjoyed a delicious white slice of turkey, spuds and apple sauce — plus blackberry cobbler for dessert — I thought he'd completely given out after so much walking and talking but he insisted on going to more places — first to Elms where he talked with Mayor Huey — then to Moores Pharmacy — Dr. Dinwiddie wasn't in — he stopped by to speak to John Corbett and on to the A&P to speak to Joe Eads — I told him we'd better get back to the office where he could rest but he just had to see Robel Redmon and Theodore Worley — unfortunately, Theodore was not in — on our way back up the street he stopped by the bank to speak to Jack Ramsey and Craig Rudisill — after several more stops I finally convinced him he'd better get back to a chair — after resting awhile Aldeen Waldrop came in and, as usual, was just as sweet as could be — Troy Rector also came in and after they had chatted awhile, he decided he'd better get back to Asheville — even so, he stopped up the street where he shook hands with Mr. A. E. Cole — he had a marvelous day in Marshall — said he felt better than he had for sometime — just meeting old friends really did him good — I know this column is about my dad — but gosh, ding — I think he "deserves a column" — plus much more.

My, wasn't it awful about those little babies dying in that New York hospital? I feel so sorry for the parents and I feel sorry, too, for the practical nurse who made the mistake of putting salt in the sugar can. It must be a careless mistake, because no one would deliberately murder small babies in such an easily detectable way. Then, too, there will always be a doubt in everyone's mind just how it all came about unless some smart person comes along and gets someone to admit such a dastardly trick.

Our Ex-Governor is still making news and himself heard, isn't he? I don't understand all about this Common Market deal, but what I have read convinces me that we should take the President's advice and enter into the plan. As it now stands we have a favorable balance of trade and if we are left out of this plan, we could lose about 12 per cent of our national sales. Hodges says for most businesses a loss of that much would be fatal. Oh, well, we'll let them decide what to do, but will be hoping they make the right decision.

As for trade and economics, it looks like we'd best be concerned with our situation here in the center of our county. Other parts of the county have gone in together, raised capital, and secured industry for themselves. A group of men are now in the process of raising funds for a place for industry here in Marshall. Realizing that a payroll of even a few thousand dollars a week would aid each and every one of us, we must give to this cause and when you are asked to donate I hope you will do so.

Observed — As usual, I left out the name of one of the young ladies last week who had been giving devotions at PTA — she was that cute little ole Wills Ann Plemmons; thanks, Wills — by the way, I got all of the PTA forms filled out and mailed away and hope to soon get our Standard certificate — our finance committee has a plan for all to help and enjoy which will be presented at our next meeting — do come if you can — add to the new car buyers, Mrs. Tressalee Ramsey; she whizzed by this morning and seemed my Rambler just stood still — that Gwen sure can go in that little old foreign car, too, can't she? — what's this about Dwight Cody driving a car out Walnut way? I guess he's just looking for prospective Chevrolet buyers, don't you? Glad to see Queen Faulkner home for a few days from Cullowhee for spring vacation — gosh, to be a college student again.

Jerry McFall Doing Student Teaching At N. Buncombe

DOROTHY B. SHUPE

Jerry McFall, son of Paul R. McFall living at Hot Springs, is now doing student teaching at North Buncombe High School at Weaverville. Mr. McFall is taking part during the spring quarter, March 9 through May 24, in the student teaching program of Appalachian State Teachers College, Boone. In this program students devote approximately twelve weeks to student teaching in the field for which they are preparing. Mr. McFall is teaching American History under the supervision of Mr. J. J. Teague. As part of the student teaching program, the Appalachian student usually lives in the community near the school and participates in community activities as well as in school activities. The student devotes full time in the school and gradually takes over the full teaching load always under the supervision of the supervising teacher and the principal. The local school's participation with Appalachian's student teaching program is a valuable asset to the general education program of North Carolina. Mr. McFall graduated from Hot Springs High School in 1958.
