HEARD AND SEEN By "POP"

Picking up the scraps from last week's Heard and Seen column - I didn't get quite finished - before closing out 1962 entirely. I want to say that I thought Santa Claus did a fine job in "covering" Marshall - although he had his headquarters in the new Garren Auto Supply, he also was seen on the sidewalks - much to the delight of both young and old - he also gave the children at the Marshall school quite a thrill by visiting over there and handing out candy - speaking of the school, I want to thank the faculty and students for the nice billfold presented me after I played the piano at chapel recently - I also wish to thank Principal Edwards for his kind remarks - I actually don't deserve such "flattery" - I enjoy doing what I can for the students and faculty and wouldn't know what to do at a ball game if I wasn't behind the mike and/or taking notes of the game for publication - anyway, you-all, I appreciate the billfold - now to find something to go into it - that's the problem - also wish to thank Mr. Bowman for his "delicious" gift - like I said about the school, Dedrick, I enjoy playing the organ and will continue to help out with organ music at funerals whenever I can - before speaking of the New Year, I also want to thank everyone who sent Christmas Cards - I just feel awfully embarrassed 'cause I didn't mail but a precious few this year - hope to do better next year - Tuesday-New Year's Day - often referred to as Bowl Day, was most pleasant - got up about 10 a. m., messed around the house for a few minutes - came to town and looked over the mail - returned home - watched the Rose Parade and then - yup, you guessed it - I did what just about everybody else did - watched the games - that is, part of every game - Roy Reeves, a mighty fine guy in my books, came up home and we thoroughly enjoyed the Orange, parts of the Sugar and Cotton, and all of the Rose Bowl games - "Bill" even cooked us up some supper and served us in the living room so we wouldn't miss a single play - although I'm having a great deal of trouble with my eyes, they stood up well under the pressure of the bowl games - instead of saying "stood up well," maybe I should say they stayed open well - Pender McElroy came in the office the other day - was glad to see him - Pender looks great - I think California agrees with him - Robert Lewis, my secretary's husband, has also been in and out of the office (naturally) since his marriage to Loella - he left for Fort Gordon, Ga., Wednesday and Loella was mighty melancholy - with postage rates increasing next Monday I will have to "cut down" on my correspondence some - Social Security also has increased - newsprint increased - everything going up, up, up, and one subscriber writes in wanting to know why The News-Record costs "so much" - I challenge this subscriber to show me anything which doesn't cost more now than it did ten years ago - or even five years ago - or even one year ago - he renewed his subscription but said he thought it should still be the same cost as ten years ago - some people don't realize how much expense is involved in producing a newspaper - the subscription price actually doesn't do much more than pay for the newsprint it is printed on - didn't mean to "preach" a sermon in this column but it's all part of Heard and Seen, isn't it? - one of my readers writes in wanting to know if I've had any more 'possum experiences - answer: thank goodness, no - for the reader inquiring about "Scoop" (our pet Persian cat) - he's getting along fine - is nine years old and is the "boss" at our house, believe me - the doctor tells me I have double cataracts and must undergo surgery this Spring - it's getting awfully hard for me to distinguish people even on the sidewalk as I pass them - please don't think I've gone "high-hat" if I pass without speaking - actually, it's mighty hard for me to read, write, drive, or do anything with these cataracts pester me - one of my friends said I passed him twice without speaking and wanted to know if I was "mad" - I told him to please excuse me, I couldn't half see - same goes for all

SWEAT SETS OFF BLAST Long Beach, Calif. - Richard F. Mehl, 14, had the unique experience of "exploding" recently. Hot weather, perspiration and a hip pocket loaded with sodium peroxide crystals all combined to set off the explosion, as Richard seated himself at his desk in chemistry class. Classmates stripped off his burning clothing. He was treated at a hospital for burns on the hands, forearms, hip and leg.
