These cursed brush fires are beginning to "bug" the firemen around here — the latest "call to duty" for firemen occurred last Friday afternoon when a Diesel train presumably started a blaze below the home of Morris Frisby — flames quickly spread up the mountain and firemen and other volunteers fought for several hours — all three trucks were used — in fact, two of the trucks had to be refilled several times with water — all went well until Ralph McCormick got a little careless and instead of spraying the flames, he sprayed Ron Wilson and Fain Davis — anyway, the firemen are always ready when an emergency occurs — since I've had "cataractitis," I haven't attended a single basketball game — well, I decided to "test" my eyes last Saturday night at the local gym — I saw (though dimly) the Marshall girls hand East Yancey its first defeat of the season — it was a fine game — I've read and written about the local sextet but this was my first time actually witnessing them play — MHS has a fine team and I personally think they'll win the county tournament for the second straight year — watched half of the boys game but decided that I'd better not overdo it — glad the boys defeated East Yancey — Earl Davis, who helps us in the shop here, stayed right with me — "Bill" also went with me but I "lost" her in the crowd — although "Bill" isn't a basketball enthusiast, she enjoyed seeing the MHS girls win — enjoyed seeing and talking to Diane Smith — hadn't seen her in a long, long time — although I thought I did at the Aston Park Hospital several weeks ago — Talmage McLean got "kyped" with his soft drinks when he spilled one — got a "kick" out of watching Denise Storey frolic during the game — also glad to see Leta Jo Ramsey and many other guys and gals I hadn't seen lately — Monday night, all of a sudden, the winds howled around the house and a little later WLOS-TV announced it was snowing on Sunset Mountain — I went out in the yard and was amazed to see the snow pouring down — I had returned from town about an hour earlier and there were no signs of snow — I wasn't the only one surprised — everybody was taking about the sudden and surprising snow Tuesday morning — it was beautiful on the trees — a very wet snow indeed — it soon turned to mush and quickly disappeared — there was no school Tuesday and Wednesday due to hazardous conditions but the tourney got underway here Wednesday night.

PACKING IS IMPORTANT TO GOOD SILAGE

One of the secrets to good silage in a stack is good packing. P. E. Boss, assistant county agent, states. Mr. Roscoe Reeves of the Sandy Mush community, stacked corn silage last fall and hasn't lost a wheelbarrow full from spoilage. He credits the quality of this silage to a good job of packing and a good fence around his stack. Mr. Reeves says that too many of the unsatisfied stack owners built their stacks too narrow and, consequently, cannot do a good job of packing with their tractor. Mr. Reeves' stack is a
