Boosters Club, Faculty Split Twin Cage Bill

The doubleheader basketball game last Saturday night on the local floor between the Boosters Club "Globetrotters" and the Faculty "Saw-Stars" was witnessed by some 300 fans who roared approval and some disapproval at the way the teams played the dribble and shoot game.

The girls' game was won by the Boosters Club with Carolyn Nix being the star, scoring eight points for her team and two for the opponents as she shot a basket in the wrong goal. Katy Webb looped in four points to complete the BC offensive surge. "Sure-Shooting" Shupe was high scorer for the losers, racking up an amazing total of 6 points.

In the men's contest, Bill "Commissioner" Roberts showed real class by looping in 8 points, but his accuracy and speed was not enough and the Faculty won, 27-20, with Jack Cole, John Leatherwood, J. C. Wallin and Ed Morton starring.

County Men Are Charged With Robbery Saturday

Two Madison County men were arrested Saturday night by members of the Sheriff's Department after Douglas Mills, 19, a soldier stationed at Fort Bragg, reported that he had been robbed of his clothing and other personal items. Mills, en route to Tennessee for the week-end on leave, stated that he was picked up at the Madison Grill by two men and when the three were between Walnut and Walnut Gap, the two Madison County men robbed him.

Arrested after an investigation were Robert Reeves, 22, of Marshall R-3 and E. B. Profit Jr., 24, of Marshall R-2.

The two men are now out on bond of \$1500 each, Sheriff Ponder said.

The soldier's clothing has been recovered and he was not harmed, the sheriff stated.

Feed Corn, Cob And Shuck Meal To Replacc Hay

Farmers who do not have enough roughage to carry their cattle through the winter would do well to consider feeding ground corn, cob, and shuck meal to their livestock. This is a high energy feed and is a better buy per pound of digestible nutrients than is most hay that can be bought at this time. This feed, if mixed with a small amount of protein supplement such as cottonseed oil meal, will provide a high energy feed and will provide some bulk in the ration. If this type feed is fed, farmers may feed low quality roughage, such as shucks, cane, or low quality hay advantageously.

It is very important that animals receive some salt in the winter and it may be mixed at the mill with the corn, cob, and shuck meal.
