

A&P'S NEW \$4.5-MILLION BAKERY, shown in this artist's drawing, will be built in Charlotte to serve The Great Atlantic & Pacific Tea Company's stores in North and South Carolina. The 150,000-square-foot facility will have a capacity of approximately a million pounds of assorted baked foods when completed in the fall of 1966. It will produce a complete line of Jane Parker fresh bakery products as well as a variety of A&P frozen baked foods.

the general contractor and owner, Capital Plans, Inc., of Shelby, N. C., attended the ceremonies.

The 150,000-square-foot Jane Parker bakery will replace the company's present facility in three buildings at 817-822 and 900 Hill street.

James H. Nichols, vice president of A&P's Charlotte Unit, said "the new Jane Parker bakery, which will have a capacity of approximately a million pounds of assorted bakery products each week, is expected to be completed in the fall of 1966."

"The greatly increased capacity of this new plant will enable us to adequately meet the requirements of the approximately 250 stores which we serve in North and South Carolina from this point," he added. "Our new site also will provide ample room for future expansion as the demand for our baked foods increases."

The two- and three-level reinforced concrete and brick building which was designed by A&P's engineering department and J. N. Pease Associates, will incorporate many features to ensure the most sanitary conditions throughout its interior. All air for use in the plant will be filtered to prevent airborne contamination from entering production areas. Fluorescent fixtures which simulate daylight conditions will be flush-mounted with the ceiling to eliminate dirt-catching surfaces. Throughout the bakery, attractive buff colored ceramic tile will cover wall surfaces while red vitreous shale brick will be used on the floors to facilitate maintenance, Mr. Nichols explained.

All exterior doors will be equip-

new \$4.5-million Charlotte bakery. On hand for the groundbreaking

ceremonies at the eight-acre site at Hovis and Tar Heel roads were company officials from the Southern Division office in Jacksonville, Fla., the Charlotte Unit and the National Bakery Division in New York. In addition, representatives of the architectural firm of J. N. Pease Associates of Charlotte and

ped with air curtains that prevent airborne particles from entering the bakery when doors are opened. A similar air curtain will be installed at the entrance to the three-car indoor rail siding where bulk flours will be discharged into huge silos. The siding also is equipped with a special electrical system so that refrigeration systems in cars can be operated while they are waiting to be unloaded.

A&P's new bakery will handle the production of frozen bakery products as well as its extensive line of Jane Parker fresh baked foods. A new blast freezer capable of maintaining a temperature of 40 degrees below zero will freeze the baked foods as they emerge from the ovens. Frozen products will be held in a 10-be-low-zero room which has a capacity of over 500,000 cubic feet.

Recorded music will be broadcast throughout the plant and the air-conditioned employee lunch rooms over a public address system. The plant, which will employ approximately 210 men and women, will have off-street parking facilities for 120 cars in an adjacent area which will be paved, fenced and illuminated.

Laurel Student Receives McClure Scholarship At WW

Dean Henry W. Jensen has received word that the directors of the James G. K. McClure Educational and Development Foundation have chosen three Warren Wilson College scholarship winners for 1965-66.

One of the three is Jimmie Dean Outshall, valedictorian of Laurel High School. He is the son of Mr. and Mrs. Charles Cutshall of Greeneville, Tenn., Route 7.

Cutshall will major in engineering.

The other winners are Rania K. Robinson, of Micaville and Roger Dean Peterson of Green Mountain, Rt. 1.

In addition to the McClure Scholarships, all three students are receiving substantial scholarships from Warren Wilson College.

ARTHROITIS-RHEUMATISM

Do claims and double talk make you doubt you can get any relief from arthritic and rheumatic pains? Get 100 STANBACK tablets or 50 STANBACK powders, use as directed. If you do not get relief, return the unused part and your purchase price will be refunded. Stanback Company, Salisbury, N. C.

NO LIGHTS WITH THIS TILT

They again loaded this house on a trailer Wednesday and continued moving it from Mars Hill. It slid off the trailer bed Monday when the towing truck pulled to one side to avoid low hanging trees. At the same time the trailer passed over a dip in the pavement of N. C. Highway 36, and the tilt was too much. C & F Housemoving Co., of Asheville said two cranes were needed to hoist it back on a trailer. Two workmen on the house received leg injuries when they jumped from the building. The house is one of four being moved from the site of the Mars Hill College gymnasium. (Walter Smith Photo.)
