HEARD AND SEEN By "POP"

What did you do Labor Day? — well, I got hooked up in the Labor Day WNC Open Checker Tourney at the home of Mr. and Mrs. R. H. Bobo, Hendersonville Road, and played checkers practically all day — we had a grand time, as usual, with Mr. and Mrs. Bobo and neighbors going all out to make everything pleasant — the picnic dinner was wonderful — enough to feed an army — and excellent-ly prepared — everything went off fine — that is, until I lost in the finals — but to a very nice fellow — Jack Sturgeon — it was sweet revenge for Jack because I defeated him previously in a tourney for third-place honors — after tourney, I "took in" the baseball-softball game at McCormick Field — that was part of my Labor Day activities — I heard many went fishing — others took trips — while others worked in tobacco or around the house — you could never guess, however, what Roy Wild did on Labor Day — believe it or not, he worked on the Christmas Star which shines on the hill during the Christmas Season — I think Roy deserves a pat on the shoulder for taking this holiday to repair the star — I hope all of you who read this column had a successful and happy Labor Day — glad they got the water lines fixed and school was able to open Monday — I imagine the students had rather go now than to have to go so late next spring — gosh, all three county football teams were defeated last week — but I have a sneaking notion that they're going to win some games real soon — it's mighty hard for our small schools to compete against the larger consolidated schools with so many more students — I wonder when our county will keep pace with other counties and consolidate — I think it would be best for everyone concerned — curriculumwise, sportwise and all other wise — for instance, Haywood County, as large as the schools are at present, are consolidating next year until there will be only TWO high schools in that county — how much longer can our county go on with five high schools? — let's start thinking about consolidating NOW — and I feel the State will give us adequate roads for school bus travel —

JUST A WOMAN'S OBSERVATIONS By DOROTHY R. SHUPE

Have you put away your white shoes and bag? I used to put them away the day after Labor Day, but I believe I'm gonna wear them until frost this year. I guess the main reason is — I just don't have a new fall bag and shoes! We looked at the calendar the other day and it said that fall begins on September 23, so look for me in white shoes until then!

What will they think of next! In my NATIONAL OBSERVER this week, there is a story about doing away with the local churches! Now, they don't say to do away with Christianity, but to bring Christianity to those people in areas that need to learn about God — where the people are — at coffee houses, homes of the invalids, in poverty stricken areas, and places even of ill repute!

One preacher said that today's churches exist primarily for its own members instead of for the outside world. He cited the example of how a church would spend thousands of dollars for a new organ, but would argue interminably over small donations to community projects! I guess the man does have a point at that!

Oh, I don't suppose any kind of thing like this will touch our churches for a hundred years, but it is food for thought, eh, Coley?

Now this trouble about Kashmir. The trouble started when Great Britain dismembered the Indian empire in 1947, making India and Pakistan separate nations. Kashmir was a small principality with most of the people Moslems, ruled by a Hindu maharajah, but was given the choice of going with either of the two new nations. Before a decision was made, fighting broke out between the two groups and was stopped by United Nations efforts in January 1949. Now they've started fighting again over the same thing.

I don't know if you wanted or needed a lesson about current events, but Pop just writes about safety and motherhood and Tribble about his golf game in THE CITIZEN, so I thought I would bring you up to date if you hadn't been getting the news.

Boy, Eldridge, Liston, Doug, and Mayor Henderson sure know whose car to be in when they wreck, don't they? Imagine being jostled in Car No. 2 — And a '65 Buick, at that! I hope they told Lt. Scott that if the wreck had occurred up here on 25-70, the outcome might not have been so slight.

Observed — After 2 days of school, I've observed many things, but my mind is on getting ready for tomorrow and I can't think of too much — My sympathy to the Charlie Treadway family — He was such a good man, and so neighborly with everyone — Been getting Bill Sharpe's magazine, THE STATE, a couple of issues, and do enjoy it very much, when I get some pecunia I'll try to cross your palms, sir — Brenda Lewis said I left out Brother Eugene Lewis in the list of people getting degrees — and he got his Master's — AND I left out another of our desirable bachelors at Marshall High — one David Wyatt — How could I EVER get the idea he was already taken?!"
