New from Nationwide— an insurance plan that supplements Medicare— pays you cash when you need it most.

How will Medicare affect you? Will you need additional insurance? See a Nationwide agent for the straight answers.

Medicare provides a base of coverage for many medical expenses. But it wasn't designed to give complete protection. What's needed is an insurance plan that pays cash— direct to you. That's the reason for S.H.I.P.— Nationwide's Senior Hospital Income Policy.

S.H.I.P. pays daily benefits of a fixed amount for up to 180 days while confined in the hospital for any one accident or illness. You use these cash benefits to pay any expense not covered by Medicare; or to pay other expenses incurred as a result of hospital confinement, such as additional living expenses for you or any member of your family.

Ask your Nationwide agent for plain talk about Medicare — and S.H.I.P. Act now, because your present health insurance may not give you the protection you need after July 1 — the date Medicare becomes effective.
