

Even the ash tray rides smoother in Chevrolets

When you're down at your dealer's trying out a new Chevrolet, be sure you pull out the ash tray. Notice how nice and easy it glides, never hanging up or even scraping. The reason is, it rides on ball bearings. Four shiny little ball bearings. (Take the tray all the way out and you'll see them.) You say you don't even smoke? Then look at it this way. That ash tray is a symbol of the way we make cars: Paying extra attention to the little things as well as the big ones, as a way of making extra sure your '67 Chevrolet gives you

that sure feeling

County Basketball Results

ADJUSTMENT Ability to cope with changing times is an essential characteristic of all great men.	NO CHANCE Faith costs nothing to get, nothing to keep, but the person without it is lost.	MOVE OUT If at first you don't succeed, don't sit down and tell what your ancestors did.
