Shrinks Hemorrhoids Without Surgery Stops Itch—Relieves Pain For the first time science has found a new healing substance with the astonishing ability to shrink hemorrhoids and to relieve pain—without surgery. In case after case, while gently relieving pain, actual reduction (shrinking) took place. Most amazing of all—results were so thorough that surgery made astonishing statements like "Piles have ceased to be a problem!" The secret is a new healing substance (Bio-Prep) — the discovery of a scientific research institute. This substance is now available in suppository or ointment form called Preparation 294.
