

### Re-elect Chauncey Metcalf To Register Of Deeds

I am a son of the late John Metcalf of Madison County. I am a life long resident of Madison County, a farmer and carpenter and a past Master of French Broad Masonic Lodge; also a past Patron of Marshall Chapter, No. 36, OES. I am a member of Long Branch Baptist Church, serving on the board of deacons as chairman.

Folks, get ready for a shock. I am going to say something about my opponent, and here it is: He and his wife are fine people as far as I can say. However, he has had the office Register of Deeds for eight years, and his wife is a teacher in the public school. They also own a farm comparable to a ranch. Considering these facts, I am asking you to give me four more years in office, then I will be eligible to retire. I think that would only be fair. How about you? Think it over.

Sincerely,  
**Chauncey Metcalf**

10-24, 31c  
Paid Pol. Adv.

### Singing

There will be a gospel singing at the Hot Springs Free Will Baptist Church Saturday, October 26, starting at 7:30 p. m.

All singers and listeners are invited to attend.  
P. M. Gregg is moderator.

## EXTENSION NEWS

Last week Dr. Bill Lewis, Weed Specialist from North Carolina State University, and Mr. Sam Dobson, Pasture Specialist, visited some of the pastures that were sprayed last summer by helicopter for control of undesirable plants. It is still too early to determine just what degree of control has been achieved by this one application, but so far the results are very encouraging on stick wood, blackberry briars, first year tree seedlings (pine, oak, sassafras, dogwood, maple, birch, and hickory). On the older saplings there is some doubt as to how permanent the kill was and we will have to wait until next spring to get a definite evaluation. At this point we can definitely recommend this practice of spraying in the late spring by helicopter on blackberry bushes, briars, second growth — not over a year old, and most all broad leaved weeds. Thistles and larger trees will have to be sprayed more than once.

More work will have to be done to come up with a definite program for larger timber.

Despite what you may think, breads do not differ greatly in caloric value. White enriched, whole wheat, rye, and gluten breads are not significantly different in calories. It is usually the thickness of bread slices which affects caloric content. A slice of white enriched bread from a pound loaf cut into 20 slices contains 60 calories; a thinner slice from a pound loaf cut in 26 slices contains 45 calories.

The variety of breads available to the shopper these days is dizzying. Because there are so many, the shopper's best friend is the label. It must tell you the product name, the net weight of the contents, and the name and address of the manufacturer, packer, or distributor.

"Get your windshield wipers fixed."

Effective equipment contributes to many accidents.

### Two Minutes With The Bible

#### NO TIME FOR GOD

Those who have no time for God should consider what their circumstances would be if He had no time for them; no time to paint the sunsets, no time to send the warm sun's rays or the refreshing showers, no time to make the crops and flowers grow. We doubt that any thinking person would actually want nothing to do with God.

Cain despised God's authority and finally murdered his brother, but when he was driven from the presence of God he said: "My punishment is greater than I can bear" (Gen. 4:18).

One of the saddest sentences in the gospel records is our Lord's prediction that He would say to some: "Depart from Me, I never knew you, ye workers of iniquity" (Matt. 7:23).

Just what it will mean to be "cast into the lake of fire" (Rev. 20:15) we pray God none of our readers will ever find out, but the Scriptures do clearly indicate that those involved will be cast forever out of the presence of God.

Thank God, it is not He who desires this. He paid for our sins at Calvary to reconcile us to Himself (Eph. 2:16). St. Paul declares that God has called believers "into the fellowship of His son" (I Cor. 1:9) and that at His coming for them they shall "ever be with the Lord," adding: "wherefore, comfort one another with these words" (I Thes. 4:17, 18).

"Now then, we are ambassadors for Christ, as though God did beseech you by us; we pray you in Christ's stead, be ye reconciled to God" (II Cor. 5:20).

God has demonstrated His love for us in Christ. Why not respond by gratefully trusting Christ as your Savior?

For example, a youngster working on an entomology project (science) will gain new knowledge, improve his surroundings, and possibly "turn him on" sufficiently to seek a college degree and ultimately a career.

The 4-H program provides awards based on individual achievement. The awards are given annually by private industry through the National 4-H Service Committee. Among the 1968 donors are: Standard Brands Incorporated; John Deere; Oliver Corporation; Carleton Company; Simplicity Pat-

tern Co. Inc.; Hercules Incorporated; Amchem Products, Inc. Also: General Foods Corporation; Eli Lilly and Company; The S&H Foundation, Inc.; Allis-Chalmers; Heisdorf & Nelson Farms, Inc.; General Motors; The Upjohn Company; American Oil Foundation.

These firms provide funds for trips to the National 4-H Congress, scholarships and other recognition awards. They also lend technical assistance in carrying out the various projects in cooperation with the Extension Service in all 50 states.

Specific programs—or projects—carried on under the 10 main categories have definite objectives that help develop skills and stimulate young minds to "clearer thinking." 4-H leaders point out.

### Broad Scope Of 4-H Projects Keep Youths Busy

Heading the list of the top 10 projects undertaken by the nation's three million 4-H youths are animal science, clothing, foods and plant science. Recent figures released by the Cooperative Extension Service show that youngsters also are very much interested in health and physical fitness.

In addition to animal and plant sciences, the application of scientific principles is a part of nearly all 4-H projects, says the Extension Service.

Recreation, engineering and safety are three more areas in which large numbers of 4-H members excel. Projects involving management and furnishings for the home show high enrollment, as does conservation.

Community service and personal development are a prime concern of today's 4-H'ers as well, judging from the more than 300,000 participating.

Most 4-H boys and girls spend their time on more than one project, as the survey shows. Boys may be involved in plant and animal sciences and engineering projects.

A girl may study plant science to make her horticultural project more meaningful. Or food science to get the most from her foods and nutrition projects. Overlapping areas are safety and conservation. Both affect the individual, the home, community and nation.

Specific programs—or projects—carried on under the 10 main categories have definite objectives that help develop skills and stimulate young minds to "clearer thinking." 4-H leaders point out.

### Your Social Security

QUESTIONS and ANSWERS By D. C. NICHOLS Field Representative

Q. Now that Social Security has been in existence about one-third of a century (having lately celebrated its 33rd anniversary) — and since almost everybody now has an important stake in this program — I'm sure we all would like to have a report on the social security system's present financial condition.

A. As the Commissioner of Social Security Robert Ball recently put it — "The financing of the social security program is in excellent shape." He made this statement just after completion by the Boards of Trustees of the annual review of operations of the four Social Security trust funds.

Henry Fowler, Secretary of the Treasury, is Managing Trustee, and other members of the Boards of Trustees are Labor Secretary Willard Wirtz and HEW Secretary Wilbur Cohen. Commissioner Ball is Secretary of the Boards.

The Trustees' Reports, recently sent to Congress, show the Social Security system to be financially and actuarially sound. They show, moreover, that income to the two trust funds from which cash benefits are paid exceeded outgo by almost \$4 billion in fiscal year 1967. Assets of these two trust funds totaled \$25.5 billion at the end of the fiscal year.

The long-range cost estimates, calculated over a 75-year period, "show that the system, as modified by the 1967 Amendments, continues to be financed on an actuarially sound basis. Both the Old-age and Survivors Insurance program and the Disability Insurance program will have sufficient income from contributions (based on the tax schedule and taxable earnings base now in the law), and from investments, to meet the cost of benefit payments and administrative expenses both for the next 15 to 20 years and for the distant future."

The two other trust funds are the Hospital Insurance and the Supplementary Medical Insurance trust funds, which were set up for Medicare. Fiscal year 1967 was the first full year of operation for these two funds.

The hospital insurance program (like the retirement and survivors programs) is financed out of an earmarked portion of the social security tax contributions paid by workers and their employers. But the supplementary medical insurance program is financed by the premiums paid by those persons 65 and over who voluntarily enroll, plus matching amounts paid out of general Federal revenues.

Total income to the Hospital Insurance Trust Fund in fiscal year 1967 amounted to \$3.1 billion. Disbursements totaled \$2.6 billion. At the end of June 1967, assets of the fund amounted to \$1.3 billion. Estimates for the next 25 years show that, taking into account the improvements enacted by the Social Security Amendments of 1967, the hospital insurance program has a favorable actuarial balance — i.e., the total income over the 25 years ahead is expected to exceed total outgo.

Income to the SMI Trust Fund in fiscal year 1967 totaled \$1.3 billion, while disbursements in the same period totaled \$798 million. At the end of its first year of operation, assets of the fund amounted to \$486 million.

Under the law, the SMI premium rate for any period is to be set at a level that will bring in sufficient funds to cover the benefit payments and processing costs for that period. The present premium rate is \$4. (Since provision is made for keeping this program self-supporting on a year-to-year basis, there apparently is no need for long-term projections for this part of the Social Security program.)

## SUPPORT GEORGE C. WALLACE FOR PRESIDENT NOVEMBER 5

### THE MAN . . .

**QUALIFICATIONS 1945-1967**  
● Outstanding attorney  
● Assistant Alabama Attorney General  
● Member of State Legislature  
● Circuit Judge  
● Governor

**PERSONAL LIFE**  
● Family man . . . four children  
● Combat Veteran . . . WWII  
● Active for many years in church and Sunday school work  
● Unassailable record of integrity in private and public life

**FISCAL RESPONSIBILITY**  
● Put Alabama on a firm financial basis  
● Eliminated state limousines, yachts and other costly luxuries  
● Put state purchases on a strict competitive bid basis

● Developed a surplus in the state treasury

### ACCOMPLISHMENT

● Education . . . established a new university, 14 junior colleges, 15 trade schools and raised teachers' salaries.

● Industry . . . 100,000 new jobs. Highest total employment and lowest unemployment in state's history. Obtained \$2 billion worth of new and expanded industry.

● Agriculture . . . greatly increased agricultural research, land fertilization, crop yields and farm income.

● Labor . . . Issued executive order incorporating minimum union wage rates in all state contracts. Increased Workmen's and Unemployment Compensation benefits 37%. Promoted and passed legislation that reduced firemen's work week from 72 to 56 hours and substantially increased retirement pensions.

### HIS BACKGROUND . . .

#### FROM FARM BOY TO GOVERNOR

George Corley Wallace was born at Clato, Ala., Aug. 25, 1919, the son of a dirt farmer . . . As a youth he did chores on the farm and later served as a Page in the State Senate.

He was quarterback on the Barbour County High School football team and twice won the Southern Golden Gloves bantamweight boxing championship.

He worked his way through the University of Alabama by waiting on tables and helping out in the kitchen . . . He was president of the Freshman Class, captain of the baseball and boxing teams, finalist in the Student Debating Tournament, president of the Spirit Committee, member of Phi Alpha Delta Legal Fraternity and member of the Law School Honor Court.

Gov. Wallace received his law degree in 1942 and then saw heavy combat duty as a B-29 Flight Sergeant in World War II. Following the war, Gov. Wallace became an assistant attorney general in Alabama and at the age of 27 was elected to the Alabama House of Representatives where he served with distinction. In 1968 he was elected Judge of the Third Judicial Circuit of Alabama, becoming the youngest Circuit Judge in the nation.

He was elected Governor in 1963 and during his administration (1963-1967), Alabama enjoyed record-breaking growth in industry, education, highway construction and other phases of state government. There was not a single hint of scandal during his four years in office.

Governor Wallace is the father of four children. His wife, Lurleen Burns Wallace, who succeeded him as Governor in 1967, lost a courageous fight with cancer on May 6, 1968. He is a Lay Leader and member of the Board of Stewards of the Clayton, Ala., Methodist Church, where he has been a Sunday School teacher for over 20 years. He is a member of the American Legion, Amvets, VFW, Woodman, Moose, Elks, Civitans, Alabama PTA, Board of Directors Alabama Pensions Institute, Inc., and Alabama Tuberculosis Association. He is a Mason and a Shriner.

Paid for by Madison County Citizens for Wallace.

### HIS PLEDGE . . .

#### AS PRESIDENT, GEORGE WALLACE PROMISES TO:

- 1—Use his position as President to assist in restoring law and order and to give his moral support to the policemen and firemen of this nation.
- 2—Work toward bringing the American servicemen home following an honorable conclusion to the war in Vietnam.
- 3—Evaluate all foreign aid to nations not supporting the United States.
- 4—Return schools, hospitals and other domestic institutions to local control.
- 5—Ask Congress to repeal the so-called "Open Housing" law.
- 6—Remove shackles from free enterprise system thereby helping alleviate poverty by providing more and better jobs for all.
- 7—Provide strong agricultural and industrial programs.
- 8—Use common sense approaches to solve problems of the large cities.
- 9—Fire every Communist working in every defense plant in the United States.
- 10—Seek an indictment against every person in this country calling for a victory for the Viet Cong.
- 11—Reexamine tax exempt status of multi-billion dollar foundations and use money to give average wage earner additional income tax exemptions.
- 12—When attrition takes its toll, appoint members of the U. S. Supreme Court who are differently oriented from those now serving on the Court.
- 13—Eliminate wasteful federal spending.
