North Carolina Grade A dairy farmers will vote in July on the question of expanding their promotion and research programs for milk. The statewide referendum is being sponsored by the American Dairy Association of North Carolina, Inc., as authorized by the General Statutes of North Carolina.

A ballot will be mailed to each Grade A dairy farm unit on July 10. Ballots will be mailed back to the Association office and they must be postmarked not later than midnight, July 28, 1969. The vote will be on the question of dairy farmers assessing themselves a total of four cents (4c) per hundredweight of milk they sell. The assessment will be used to expand their advertising and promotion of milk in North Carolina markets.

The proceeds from the assessment will be administered by the Board of Directors of the American Dairy Association of North Carolina, Inc. By working together, this self-help program will enable dairy farmers in the state to expand their consumer advertising program for milk throughout North Carolina. This will include additional milk advertising in newspapers, on radio, television and billboards.

Shopping for fresh peaches? Here's a tip from U-D-A's Consumer and Marketing Service. Best quality peaches are fairly firm and have a yellow or red color over the entire surface. And since peaches are in good supply, they're a wise choice for budget-minded families. Be a smart food shopper. Treat your family to peaches throughout July.
