Plemmons Speaks At Meeting

The Region B Child Development Steering Committee met Monday in the office of Region B Planning and Development Commission. Reports were heard from Jerry Plemmons of Madison County, Gayle Brown of Buncombe County, Reba Roberts of Henderson County and Edith Jenkins and Betty McGuire of Transylvania County.

L. D. Hyde, Commission Director and Chairman of the Steering Committee said that based upon reports from the counties it appears that plans should proceed for establishing county child development councils.

It was agreed that meetings would be held in each county for that purpose. A general meeting is scheduled for Monday May 15 to discuss organizing a regional council.

"It will be necessary," Hyde said, to officially organize, adopt by-laws and name officers at the May 15, meeting.

The May 15 meeting will be held in the Region B Commission offices in the Asheville Airport. It will begin at 10:30 a. m. and adjourn by 12:30.

Persons wishing to learn more about the child development program should contact their county representative or write or call Hyde at the Development Commission.

MHS Athletic Banquet Held

Jack Lytten, Head Basketball Coach at Mars Hill College, was guest speaker at the annual Marshall High School Athletic Banquet held in the school cafeteria last Friday night. Coach Lytten's speech was informative, impressive and entertaining as he used various sport's celebrities experiences in pointing out ways to be successful. Among those mentioned included Brach Ruckey, Ty Cobb, Babe Ruth, Lou Gehrig, and "Marty," an imaginary athlete. He was introduced by Coach Roy Reeves.

Following the invocation by Walda Harrell, Miss Cheryl Reeves sang two selections. Charles Huey accompanied Miss Reeves at the piano.

Ted Revis, star athlete at M.H.S., gave the welcome and Coach Reeves recognized the guests.

Presentation of awards were made by Miss Billie Redmon (cheerleaders); Coach Reeves (Football); Coach F. N. Willett

PART OF HUGE CROWD which attended Athletic Banquet.

(Girls Basketball); Coach Larry West (Boy's Basketball and Baseball).

Among those receiving special awards included:

Outstanding football cheerleader, Walda Harrell; Outstanding Basketball Cheerleader, Rhonda Sprinkle; Outstanding Leadership Qualities, Walda Harrell; Female Athlete of the Year, Kathy Fisher; Girls Basketball Captains, Landa Haynie, Walda Harrell; All-Conference, All-County, Kathy Fisher; Boy's All-Conference, Ted Revis, Ronnie Tipton, Jimmy Ponder, Horton Rice, Boyce Mayhew, Danny Ball; Outstanding Football Players, Danny Ball, Jimmy Ponder; Outstanding Male Athlete, Ted Revis; All-Conference Basketball (second team), James Kent and Horton Rice; Most Valuable Player (basketball), Ted Revis; Most Outstanding Baseball Player, Randy Roberts.

Members of each athletic team at MHS were also given certificates.

Registration Procedures For Draft

The Selective Service System announced today new registration procedures for the draft. Under the new provisions, a registrant must register with a draft board or a draft registrar within the period 30 days before to 30 days after his 18th birthday. He must bring some official type of identification with him when he registers, such as his birth certificate, Social Security Account Number card, drivers license, school or college activity card, or a credit card.

The new registration procedures are designed to make registration more registrant-oriented and draft board operations more streamlined. Registration will consist of filling out a Registration Card, Additionally, a new Registration Questionnaire also must be filled out, although the registrant can take the questionnaire with him, or it may be mailed to him. He must return it within 10 days.

The new Registration Questionnaire requires the names and addresses of three persons outside the registrant's immediate family who will always know his address. The names, relationships, and addresses of all the registrant's family over age 16 also must be listed. In addition, the form includes questions inquiring

whether the registrant believes he qualifies for a hardship deferment, for status as a conscientious objector, for a surviving son exemption, or for other Selective Service deferments and exemptions.

Finally, every registrant must list a place of permanent residence, as well as a current mailing address. The draft board serving his permanent residence will be the

registrant's permanent draft board, regardless of where he registers.

When he registers at this own draft board, and when time permits, after he has completed the registration card the registrant will be issued his Registration Certificate along with his Notice of Classification stating that he has been placed administratively into a holding classification, Class 1-H.

Mailbox Improvement Week May 15-20

The week of May 15-20 has been designated as "Mailbox Improvement Week" a traditional observance for generations, particularly in rural areas and smaller communities, which contribute nationally to environmental quality. Postmaster Frank Ramsey, announced today.

Mailbox Improvement Week serves as a signal for special community efforts to encourage repairing, painting and other improvements in the security and appearance of 18.5 million rural and suburban curbside boxes.

To improve the appearance of mailboxes, and to make certain that they comply with regulations on such matters as safety and accessibility.

The improvement effort is important because more than 70 million individuals receive their mail through rural type mailboxes, which is a far cry from the improvised receptacle used by the country dwellers in the early years, when old tin cans nailed to trees served the purpose as mailboxes.

Many Postal customers now use the rural type mailbox as a frontal piece in a bed of flowers, or mount the boxes on elaborate posts containing designs of animals, birds, flowers and so forth, the postmaster added.

'Miracle On The Land' Mars Hill Wednesday

On Wednesday night, May 10, at 8 p. m., the people of Madison County and the surrounding area will have the opportunity to witness a most spectacular slide presentation. This presentation is entitled "Miracle on the Land." The event is made possible through the cooperation of the Madison County Agricultural Extension Office and Mars Hill College and will take place in Moore Auditorium on the Mars Hill Campus.

The intelligence of man is a creation of nature and is an integral part of ecology. Man's effect on his environment, good or bad, is an important element in the scheme of ecology.

This is the theme of a new three-screen presentation of Stauffer Chemical Company. Entitled "Miracle on the Land," the Stauffer presentation sketches the profound progress of agriculture during the past 25 years. It notes that this progress is due, in no small measure, to the use of a new generation of farm chemicals.

Ever since the idea of planting a seed to grow food first occurred to primitive man, farmer have been battling the adverse forces of nature. The advent of pesticides, for the first time, gave man an advantage in his endless war against weeds and bugs which have destroyed his food crops; for the first time insecticides gave him an edge in battling the insect-borne diseases that had destroyed or blighted the lives and hopes of millions.

Employed to save lives, these chemicals enabled men to live in dignity and to triumph over the constant spectre of starvation.

Man lives better today than ever before. Once most of a man's time, effort and energy was expended in gathering the day's supply of food. During the 1860's, one American farmer

produced enough to feed himself and three other people. Today he feeds more than forty-five others with a far greater variety and better quality food and fiber. Modern society exists because men have the time to educate themselves and to specialize. They are freed from the necessity of doing their own hunting and growing of food.

4 Injured In Collision

Four people were injured in a head-on collision Saturday night about four miles south of here on U. S. 25-70, according to the State Highway Patrol.

Trooper D. J. Good said a car driven by Plummer Boyd, 48, of Walnut was traveling north on the highway about 10:30 p. m. when it crossed over the center line and struck another vehicle driven by Eugene Saylor, 27, of Americus, Ga.

Good said Boyd and Saylor, along with Saylor's two-year-old daughter, Cathy, and a woman identified as Saylor's mother-in-law, were all taken to Memorial Mission Hospital.

Boyd was charged with driving under the influence of alcohol and driving on the wrong side of the road, according to Good, who said both cars were demolished in the accident.

Those injured in the Saylor car received dispensary treatment, but Boyd, admitted to the hospital, was reported in fair condition.

they have time to develop the good life. This is the debt that society owes the man in agriculture.

Affluence and increasing populations have created vast new problems. There are those who argue that salvation lies in turning back, in stopping many of those things which characterize our civilization. "Miracle of the Land" points up the fact that the solution, and real hope for the future, is not destruction of the American standard of living but for man to recognize his intelligent self-interest in the environment and to apply his science and technology accordingly. The presentation relates how Stauffer research constantly seeks new and better compounds for agriculture and how the Stauffer organization carries the fruits of this research into the field to the farmer.

The story of "Miracle on the Land" is told on three screens set side by side for a super wide-screen effect; panoramas cover all three screens and alternate with single views. There are over 400 slides in three projectors, all controlled by an electronic programmer. The original music score, sound effects and narration augment the visual presentation.

See it. Hear it. Enjoy it...and learn the promise of agriculture to our civilization. Public Invited.

Alumni Speaker

Stanley Ward, president of the Marshall Alumni Association, announced this week that Wayne Bradburn, former football coach and teacher at Marshall high school, would be the guest speaker at the 17th annual MHS Alumni Association Banquet here on Saturday night, May 20. The popular coach, a native of Madison County, posted an enviable record while at
