

1972 Delinquent Tax List For Madison County

SALE OF REAL ESTATE FOR 1972 TAXES

At 12 o'clock noon on August 27, 1973 at the Courthouse in Marshall North Carolina, I will sell at public auction to the highest bidder for cash pursuant to the existing laws of North Carolina, the following lands in Madison County, on which the taxes remain unpaid for the year 1972.

REMEMBER THAT COST AND PENALTY WILL BE ADDED TO EACH TAX.

Harold H. Wallin Tax Collector

WATT'S CURRENT?

How To Buy A Kitchen Appliance

Whatever kitchen appliance you're thinking of buying, you should consider the following points suggested by General Electric home economists before making your decision.

Designed For You. Has it been designed for your convenient operation and use? Will it be easy to take care of? Does it have such features as easily accessible controls with clear markings, good stability and easily cleanable surfaces? Will the size meet your individual needs and are accessories available which add to its usefulness?

Construction. Does the appliance appear well constructed of materials suitable for its intended use? Are there any sharp edges that may be harmful during use?

Use. Will the appliance fulfill your differing needs, or will it duplicate your present equipment? Does it have the features you're looking for, bearing in mind your intended use? Will its versatility fulfill most of your expectations?

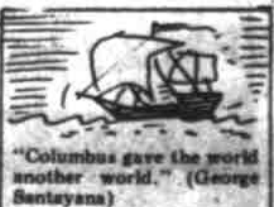

Brand Name. Is the appliance made by a reputable manufacturer who is known to provide products of quality and lasting performance? And does it carry a warranty that includes parts and service should this become necessary within the period stated? For instance, GE appliances not only have excellent warranties, but can also be serviced through a network of service centers throughout the country.

Small Appliance Features. When buying a small kitchen appliance such as a coffee pot or electric skillet, do you look for appliances that are impermeable for cleaning, and have thermostatically controlled temperatures?

Energy Conservation. You can help conserve America's energy by buying portable baking and warming appliances, which use less energy than the range oven for the same cooking job.

UL Listing. Is the Underwriters' Laboratories registered symbol visible on the product? This indicates it has been manufactured and tested to their standards.

If you can say yes to these questions, then you have yourself a kitchen appliance you'll be proud to have in your home.

"Columbus gave the world another world." (George Santayana)
