The point is, you don't need a bigger car outside to have the comforts inside.

The six-passenger car-still in tune with the times. Ford thinks a lot of people need and want a solid well-made car that can carry six people comfortably. Also, in these times, it's good to know that the Ford LTD uses regular gas. And comes equipped with standard steel-betted radial ply tires -they deliver thousands of extra miles over non-radials. Driven sensibly, the Ford LTD offers real economy and convenience on today's roads. You can pay more for six-passenger luxury. But look close, and you'll see that there isn't much more luxury to be had at any price, than we offer in the Quiet Ford LTD.
