## how to save on long distance by pre-planning

Holly Thieman, Long Distance Operator, suggests you plan your long distance calls in advance... jot down what you want to say... tell your party your call is long distance... and use your watch to keep track of time. Advanced planning cuts time and costs.

You'll also save by dialing direct and calling out-of-state during off-hours... after five in the evening or on weekends when discounts are highest. Check your directory for specific information.
