Enthusiastic about bandage

Anytime your child has an open cut, please be certain to bandage it after, of course, first having cleaned and applying medication to it.

We're carrying all kinds of bandages with which you're undoubtedly already familiar, but I'd like to take a second to talk about the relatively new elastic bandages.

These bandages come in various sizes, hold fast, keep the wound area clean, and give support to the area being bandaged. Once you've used one, you'll be able to see for yourself just why we continue to be enthusiastic about them.

We're not only your drug store, but your friend. Come see us soon.
