

# Mars Hill Auto Show Brings Back Memories

THE MARS HILL Fire Department Auto Show provided various scenes for spectators last Saturday. Modern sports cars (top) shared the field with cars of the past such as the 1940 Cadillac (lower left). Those who like to toot their own horn would have no trouble with the honkers found under one hood. The entrants spent a lot of time polishing their entries in hopes of carrying home one of the many trophies awarded at the event.
