OUR 30-MONTH CD PAYS YOU MORE THAN THEIR 30-MONTH CD

Only Asheville Federal Savings Pays You

10.33%

annual yield on

9.70%

per annum 30-Month Certificate interest

Next time you look at the rate ads, don't compare just the "per annum" rates. Look at the yields. That's the actual percentage amount your money will earn in a year when the interest and principal are left on deposit. It's what you really get paid. It's the proverbial bottom line.

No other bank or FSIC-insured savings and loan in Asheville pays as high a yield on savings as we do. Our "Maximum Compounding" method pays you more for your money even when the basic "per annum" rate is the same as somebody else's.

So before you open a 30-month Certificate anywhere, stop. Compare the yields. Then go . . . to any office of Asheville Federal Savings.

Interest compounded daily using Asheville Federal Savings' "Maximum Compounding" 365/360 formula. Interest penalty required by law for early withdrawal of certificates.

YOUR DEPOSITS AT ASHEVILLE FEDERAL SAVINGS ARE INSURED UP TO \$100,000 BY THE FSIC, AN AGENCY OF THE U.S. GOVERNMENT.
