

Mars Hill Plans Photo Exhibits

The photographs of Charles D. Tomlinson, a television, movie, drama, ballet and opera scenic and costume designer, are currently on view at Mars Hill College.

Tomlinson is an alumnus of Mars Hill's Class of 1951. After graduation, he served with the U.S. Army for two years in Korea and Japan. Returning to school after his discharge, he earned a bachelor's degree in theatre arts from the University of Miami. He has since continued his studies at UNC-Chapel Hill, New York University, and the University of London. He also taught for three years at the University of California at Irvine.

For the past 30 years, he has designed several hundred productions for the stage, scores of television shows, and six movies. Among his television credits are four Don DeLuise specials and eight Dean Martin celebrity roasts for which he designed the sets and selected the clothes. He has also spent five

Tomlinson's latest projects include the scenic designs for the ballet "Cinderella," and producing a movie based on the life story of Tom Dula. Filming of the movie is expected to begin in Western North Carolina next year.

The photographs may be viewed in the Peterson Gallery of Blackwell Hall, from 9 a.m. to 4:30 p.m. daily Monday through Friday. The exhibit is open to the public at no admission charge.

seasons with the hit comedy, "Three's Company." Although the photographs on exhibit are the work of a designer, they are not of a theatrical nature. As he has traveled through 49 countries, he has photographed life styles as expressed through native dress, architecture, and landscapes. These photographs make up a reference file, now numbering well past 4,000, for his designs. The photographs at Mars Hill are drawn from this reference file.

MICHAEL FLOWERS, RIGHT, PORTRAYS THE WICKED WITCH and Chris Tomberlin will play the part of Dorothy in the musical production of 'The Wizard of Oz', the first major production of the season at Mars Hill College. The musical will be presented at Owen Theatre on Oct. 18 through 28.

The Tiller That's Really a Walk-Behind Tractor

BCS

BCS tillers do a lot more than till. Because the tiller unit can be replaced by a lot of other implements. Like the snow blower. Or a lawn mower. Or a sickle-bar cutter. And it only takes a few minutes to make the change. But you really have to see it to appreciate it.

Come in and check out this mechanical masterpiece. Ask to see the BCS in action.
