I didn't need God! Used to boast about how I could stand on my own two feet.

Then came the broken leg. With lots of time to think and little to do I began to discover another dimension of our existence. We aren't simply "on our own." Some divine purpose links our life to the Creator, Seeking that purpose and striving to fulfill it — that's what life is really about.

I started going to church on crutches.

The leg is fine now, except for that ache when it's going to rain. My larger view of life continues to enrich each day.

And I'm finding it easier to attend worship on my own two feet!
