"Nitric Acid and Its Use for Agriculture," an article prepared by Mr. Geo. I. Smith, of Coats which won the \$10.00 prize at the clover meeting in Coats Saturday, will appear in our next issue. It is an article well worth reading and we commend it to our farmer friends and those interested in scientific farming.

We are publishing this week statement of the Bank of Harnett made to the Corporation Commission at the close of business May 1st, 1916. The statement shows deposits amounting to \$162,477.10, \$78,782.85 of this is savings deposits, mostly the accounts of mill operatives. This is an excellent showing for this season of the year.

The blacksmith shop and garage being operated by Messrs. Wood & Martin on East Broad street is doing a nice business. These young men are both experienced in their line and give personal attention to every job of work they do. They are making a strong bid for their portion of the business and will appreciate a call from you.

Congressman Godwin returned today from Washington and will spend this week campaigning through the district. Mr. Godwin is of the opinion that he will win in the first primary to be held June 3rd. He says he met with a great deal of encouragement while canvassing the district the past two weeks and thinks he will receive a larger vote than ever before.

Last Sunday morning the six-year-old son of Mrs. Mattie Jones, died after suffering for several days with measles and pneumonia. Roney Edison was a bright little boy and will be missed by his mother and little friends. The funeral services were conducted from the home Monday afternoon, by Rev. A. R. McQueen, after which the little body was laid away in Greenwood cemetery.

Dr. J. W. McLean, of Godwin, was here yesterday. The doctor said the people of his township had called an election to vote on a bond issue of \$25,000.00 for the purpose of building good roads and he is confident it will carry without a great deal of opposition. He says only a few of the voters are opposed to it at this time and those who are in favor of it are going to put up a determined fight if necessary in order to win.

SUMMER FURS MODISH AGAIN THIS SEASON

Capes and Peltrines of Taffeta Also Favred with Frack of Voile or Organdy. Ostrich Boa Neck New York, May 16.—From Fashion's New York Court comes the word that summer furs will be more modish this year even than they were last. The huge boa of white fox held the favored place last summer, but this season the shops are offering a variety of furs for summer wear. In spite of the apparent absurdity, a wide soft stole of mole, mink, seal, or ermine often proves a very useful addition to the sheer summer dress frock on seaside porch or board walk. While the round, soft fox boa will in all probability continue to be popular with tailored suits and dresses, the long, wide stole will be more used for evening. A particularly interesting stole of tailless ermine, shown in one of the large fur shops, is lined with a start-

ling black and white striped taffeta, while one of mole skin has a vivid orange lining. Here again is offered an effective way to introduce the bright bit of color so necessary to the summer costume.

The Popularity of Voile.

Plain, striped, checked, dotted, and patterned voiles, in all colors and combinations are in demand for the corded, ruffled, fluffy lingerie frock. Of course there are voiles and voiles the true wears and washes well, is sheer and dainty, quite as attractive as the more expensive cottons. There is a hint here and there of the return of hand-painted muslins for blouses and dresses. Probably the stenciled hat suggested the idea, which is quaint and pretty, if not exacting practical. All sorts of clever notions might be worked out by the woman with ingenious brain and fingers, but if the material were to be purchased or ordered, the fad might prove rather expensive. Hats and scarfs, however, will carry out the notion with voile and organdy frocks very effectively.

Flower-Trimmed Hats.

Summer would not be summer without the flower-decked hat, but the notion rarely lasts longer than Easter, except on the large picture hat of Leghorn, crin, or hemp, which completes the June bridesmaid's costume, or the summer beauty's dainty frock. This season, however there is a strong indication that flowers will play more than their ordinary role in summer millinery. The medium brimmed, rather stiff tailored hat, with its upstanding bouquet of vari-colored blossoms, so popular some years back, is being noticed here and there; one sees, also, a number of flower turbans; flower crowns are favored with certain costumes, and wreaths are quite popular. The flower-stenciled hats we very well liked indeed. Ribbon, too, is smart for trimming, and ostrich, in the form of fringe and feathers, is popular trimming.

SH Captured Near Dunn.

Monday afternoon about 4 o'clock Deputies Moore, Stell, Richardson and Flowers, captured a blockade still about one and one-half miles north of Dunn on the Washington-Atlanta highway. It was being operated by Eli Jackson, who was captured and brought to Dunn where he was given a preliminary hearing Tuesday before Commissioner Young and was bound over to Federal court under a \$200 bond. Four gallons of liquor and 150 gallons of beer was found in his home by the officers. The still was operated near the road and most of the distilling was done in the day time.
