L. BUSBEE POPE, Publisher.  
**Did Teddy Keep His Word.**  
(Philadelphia Record.)  
In 1913 Theodore Roosevelt declared in public speech: "I will never abandon the principles to which we Progressives have pledged ourselves, I will never abandon the men and women who drew around me to battle for those principles."  
In 1916 the Colonel was denounced as a traitor at a gathering of Progressives superior to the seductive charms of Geo. W. Perkins' checkbook. The puzzle is to find out which side has abandoned its principles in the past three years.

**ANNUAL BATTLE.**  
New Time to Begin Fight on Mosquitoes.  
With the advent of August the malarial-bearing mosquito becomes more active than ever. All that section of North Carolina from Rowan County to the sea is more or less menaced by this easiest of preventable diseases. The degree of danger depends entirely upon the intelligence and vigilance of the individual communities in their efforts at prevention.  
Now that the heavy summer rains are probably for the most part over, the hot days and nights of the next two months mean that anopheles mosquitoes will breed by the billion.

The State Board of Health suggests that the people in every village, community and small town—and city where there is no live health department, take a day off and see that every ditch, filled-up branch or other place where a mosquito delights to live, is thoroughly drained and all the grass and vegetation cleaned off. If this simple procedure, coupled with the daily small dose of quinine in undetectable localities, were begun now and repeated a few times until frost, thousands and thousands of dollars could be saved and much suffering could be easily prevented, to make no mention of the lives saved.  
Organize and start the fight right now. A life saved in North Carolina is worth as much as a life saved on the Mexican border.
