BENSON BOYS INJURED IN AUTO ACCIDENT.

Smithfield, Feb. 26-Seven boys of I onson in an automobile en rout to Solma to witness a game of basket will between Benson and Kenly school team sustained a serious secttient in front of Turlington graded school tels afternoon.

Elton Hadson, son of Allen Hadeon, was driving his father's a achine In turning out to pass a wagon the rear and of the car skidled into a telephone note sma, hig the end and top of the car, and catching the right cand of Carl Barefoot, fourteen years old, won of Festus Barefoot and Eli Morgan, son of Jessie Morgan, bedly bruising and incernting them. Young Barefoot lost the little and his thir! firger and will crobably lose his secend finrer. He was taken to Dr. L. D. Wharton's office where he was treated; Morgan went on to Selma as d received treatment. He was not so badly hurt, though his hand badly Other occupants of the car were builty shaken up but sus tained no serious injuries.

American Military Strength--- Equip. ping the Army.

According to figures submitted to hairman Hay, of the House Comuittee on Military Affairs, by the adtant general of the army, there are .824.790 men with military trainirg in the linited States, including regulars and the National Guard.

Mayor's Committee on National De. with a sweet smile resting on his fence estimates that 900,000 men to countenance. His last words on the United States attain the military earth were I am going to rest forsee each year. According to th Cerman standard of 1910 of this number 459,000 would be found physically fit. According to the Prench by a tack in his shoe. His suffering Jesus is offered to Everyone who stradard, which was lower, because France was forced to mak: excessive taken until his death. Little James efforts to have as nearly as possible as many trained soldiers as Germany

690,000 would be fit. There are in the United States between 15,000,000 and 20,000,000 men of military age If the present standard of the army is adhered to. and it is very high it is estimated that about 4,778,050 of these men would be available after making deductions for physical defects, morbid ly, industrial needs and dependency

of families. The Quartermaster General's de partment has in readiness equipment for the regular army, the National Guard and 250,000 edettional men and in 90 days there will be on and equipment for 600,000 to 700.

Heavy latrenching tools are on and for nine divisions of infantry. and could be delivered within fifteen days. There is in reserve pontroon

upply for 540,000 men. Busides the supplies packed and ready for shipment for the regulars he Medical Corps has in storage rui plies for 280,000 to 399,000 men.

OUR ARMY AND NAVY.

On May 1 there were 87,877 enlisted men and 4,832 officers in the United States army. The Phillippine scouts, which are additional, include 5,733 mon and 182 officers. Tickets on sale March 27th and In the navy there are 57,900 men. ters and 116 medical reserve corps.

SOME THINGS TO DO NOW IN

one of the important features. 'the gardon should be of rich, loam; nature, when such can be procure; and proferably should slope toward the east or south. During the time ankle received when he fell from a shen the ground is frozen, stable ma nure should be hauted and spream over the gardon and a hundred libe of acid phosphate used for every ter or good two-horse load of manue. As soon as the soil and subsoil are dry enough to be plowed, the land should be broken deeply, without inverting the subsoil, and should be

well harrowed the same dar the reaking is done. During February and March., the following crops may be planted: seets, carrots, bate, horse raddish. frish potatoes, lettuce, onlons, mustard, English peas, radiab, spinach offer spending asveral days here the spring turnips, strawberry plants and recest of Mice Mittle Williams, left inpo. When planted on good, rich well prepared soil, rape is a most deshe will spend some time with rela- sirable plant for salad. It is also splondid for livestock, including ci ickens.

If hens are expected to lar the should be well housed, well cared for and red a balanced ration, fuclaring cme green crop, such as rape, rye e: clover. Old hens are not profitable

as egg producers. In this "Live_at-home" scheme every family should have one or two nillch cows, such as will more than pay their board. It costs about 21 ents per day to feed a cow entirely with food purchased at present mar ket prices For best results, cowmust have pasturage. In arranging for the pasture, remember that for milk production, grass is much more valuable than shade, briars, and

Farmers who have a shortage stock feed would do well to plant r few acres of rich land to early Ru?
