After a great deal of work on the part of Postmaster Lee and his able assistants the free mail delivery has been clinched for Dunn. The required number of patrons necessary to procure the service has been secured and the service will go into effect June 1st. This will mean more to Dunn than our citizens realize and like other improvements which the town enjoys, will be popular with the people as soon as it is given a trial. Had it not been for the untiring efforts of our postmaster Dunn would have fallen down on the proposition as many were indifferent to its establishment until it was thoroughly explained by Mr. Lee.

ENGAGEMENT ANNOUNCED.
Mrs. H. S. McKay entertained at luncheon Friday to announce the approaching marriage of Miss Mary McKay to Dr. W. R. Brandon from Kannapolis, N. C.

Covers were laid for twelve, the color scheme of yellow and white being attractively carried out in detail. The center-piece was a tall basket tied with yellow tulle and filled with bride's roses. From a wedding bell of yellow, hanging above, tiny yellow ribbons found their places at each plate bearing the place-cards, on the back of which was the announcement—"Dan Cupid presents Mary McKay and Dr. Brandon June 7th." The favors which were small white wedding bells supplied ample rice with which to shower the petite bride-elect.

ding cake was placed before the bride elect who cut it first, it was passed and cut causing a great deal of laughter as the thimble, heart, money and ring fell to different guests.

The strains of the wedding march from the parlor filled the attractive little home as the guests left the dining room and the bride-elect was again showered with rice, love and good wishes and a telegram of congratulations to Dr. Brandon followed.

Miss McKay is the daughter of Mr. and Mrs. John A. McKay and is a descendant of one of the oldest families in Harnett county and her marriage will be of interest to friends throughout this and other states. Dr. Brandon is a popular and promising physician of Kannapolis but at present is doing special work at a hospital in New York.

Those present were Misses Mary McKay, Iva Pearson, Mammie Stephens Will Cooper, Madrod Hood, Brownie Exzell, Emma Lee, Janie Jackson, Christine Royal, Pearl Grantham and Margaret Pope.

RESIDENCE BURNED TODAY.
The residence owned and occupied by Mr. J. N. Creel, located in the southern part of the city, was destroyed by fire at noon today. A stiff wind was blowing at the time and the fire spread so rapidly it could not be controlled until the building was totally destroyed.

The residence was erected by Mr. Creel about sixteen years ago and had been occupied by him ever since. His family was at home when the fire was discovered, but before the fire company could arrive on the scene the fire had gained such headway it could not be checked. Very little was saved, most of the household goods being burned. The building was covered by insurance.

U-BOAT SITUATION LOOKING MORE HOPEFUL.
London, May 15.—The report of the week's losses through submarines to be issued tomorrow will be the most favorable in several weeks. The number of ships torpedoed is well below the average, while the number of ships escaping attack is very large.

Those in touch with the anti-submarine campaign also are very cheerful over the results of actual attacks on submarines which have been pushed with the utmost vigor during the fine weather of the last fortnight. This has been particularly favorable to airplane activity. According to one report more submarines have been sunk in the last week than in the month previous.

CHICORA EXERCISES WELL ATTENDED

The Chicora Chapter of the Daughters of the Confederacy was responsible for the excellent program which was rendered at Chicora last Thursday afternoon. The weather was ideal and quite a number of people from various sections attended the exercises on this occasion. The graves were beautifully decorated with flowers contributed by the ladies of Dunn and others who are interested in commemorating the deeds of our forefathers, while on the swinging branches of the trees which look solemnly up on the graves of the dead heroes, the Confederate and American flags were numerous and waived conspicuously during the occasion.

Rev. J. M. Waters, pastor of the Christian Church here, delivered the address after being introduced by Mr. J. C. Clifford in a brief speech. The address of Mr. Waters was one of the most forceful and most appropriate of any heard there for some time and was deeply appreciated by the audience present. Music was furnished by the Duke band and the selection rendered were appropriate and beautiful.

DOUBLE ROOM MYSTERY FULL OF PUNCH
Love and mystery join hands and produce a thoroughly absorbing photoplay in the latest Red Feather five-reel release, "The Double Room Mystery," which comes to the White Way theatre on Monday.

Morris, a hardened and dangerous criminal, is imprisoned for grand larceny and has engaged William Newman, a shyster lawyer, for his defense. As a recompense, Morris gives William some diamonds he has stolen.

A timid country maid of all work in the boarding house in which William exists, has attracted his attention and when he has her accused of a theft she did not commit, he has her released from jail and brings her to his room.

Meanwhile Morris has escaped and rushes to the address on William's card. He demands back the diamonds and being refused, shoots William, Georgianna, the maid, having taken refuge behind the dresser. She is dragged forth when the police arrive, but a clever newspaper reporter in the next room manages to grab the real culprit, hold him until his group is in the paper and the police are tipped off.

Then Georgianna and Willy, who works in her boarding house and who has always helped her peel the potatoes, are started off by McHugh the reporter, to the farm of his uncle.

The action of the picture is sustained throughout; the photoplay is excellent; the situations are tense and filled with love and mystery and there is punch in every climax.

Hobart Henley is responsible for the direction and his strong cast includes Gertrude Selby, Edward Brady, Edward Hearn, Harry Mann, Hayward Mack, Ernest Shields and Mrs. Witting.

First National Bank

Dunn, North Carolina

HAS ITS LANDS APPRAISED.
Expects To Get Charter From Washington In A Few Days.
Fuquay Springs, May 15.—The Fuquay National Farm Loan Association has had its lands appraised by W. C. Hammond, of Asheboro, Federal land bank appraiser, and is expecting to get its charter from Washington within a few days.
Mr. Hammond stated that this association is among the first in North Carolina to have its lands appraised, and that he believes all the loans applied for will go through. Approximately \$40,000 will be turned loose in this and adjoining townships within a short while through this source.
A. J. Fletcher, local attorney, who is secretary-treasurer of this association, was today notified that he had been approved as one of the abstract attorneys for Wake County.

Character Loans.
Omaha World-Herald.
Uncle Sam handed over to the British government the other day \$200,000,000. It was a loan based on character. No security whatever was demanded. The British government has an established character in regard to the payment of debts and that is the only security this government has. Uncle Sam proposes to advance two or three billion dollars on that same security. When Morgan and the other banking houses lent France and England money, they required collateral in addition to the promise to pay and those governments put up stocks and bonds, mostly American, equal to the amount of the loan.

It is true that there might be a revolution in England and a parliament might be elected that would refuse to pay, but there is no more prospect of that than that the courts of this country would refuse to issue the necessary processes to force payment of a judgment duly recorded in their jurisdiction. If any government to which money is loaned in that way ever gets into distress, it will first pay these loans made on honor.

The people of Denmark grew rich by making loans on character. It enabled the young men of that country to develop its resources and the same thing would follow here. If every young farmer had capital enough to start farming, there would soon be no vacant productive land in this State.
