The object of the league will be to improve the moral condition of the town and especially to see that the prohibition laws are enforced.

This is an excellent move and will, we are sure, meet with the approval of all citizens of the town.

Naturally we have an excellent town in which to live, being well located, having all necessary public conveniences such as lights, water and sewerage.

Having one of the best schools in the State, three churches and an excellent citizenship there is no reason why the town should be handicapped and criticized because of lack of law enforcement.

Our people are determined that these conditions shall not longer exist and we feel sure that the organization of the Law and Order League will have a wholesome effect in the community.

TYPHOID VACCINATION NOT A FAD

Has Come to Stay As a Great Discovery for Preventing Sickness and Death

In answer to the inquiries, "Does the State Board of Health advocate vaccination as a means of preventing typhoid fever as strongly as ever?"

"Vaccination for typhoid is not a fad, and its disappearance or disease may not soon be expected.

Wherever its use has been intelligently pursued, the results have been a large number of immunes, a small number of cases and a much smaller number of deaths.

The question, how long does vaccination remain good, is yet to be answered definitely.

The disease has practically disappeared. In other words, typhoid vaccine is no longer an experiment, but one of the age's greatest discoveries for preventing sickness and death.

The United States Army, however, requires its soldiers to be re-vaccinated every three years and this has proven sufficient to protect them from contracting the disease and to banish typhoid from the battle field.

Superior Boards to Examine Exemption Other Than Physical Disability or Deformities

Washington, July 16.—With drawing of lots for the exemption army awaiting only completion of exemption machinery is scattered sections of the country.

To this end attention was directed today to various sections of the regulations over which questions have arisen, and it was suggested that the local boards and the post-office operators during the week or so remaining before lots are drawn to insure that the registered men know just how to perform their part in the examination and exemption.

The Kaiser must go because he belongs to a past age. Evangelist Ham has just closed a successful meeting at Salisbury, twenty-two having united with the church by baptism, one young man being called to preach and one young woman offered herself for Foreign Mission service.

The evangelist will begin a series of meetings in New York city at the tent Evangel July 22d to continue through part of August.

At the close session Sunday morning July 29th at the First Baptist church the following Resolutions were offered and adopted.

1st.—That the T. E. L. Class has greatly enjoyed and been spiritually enriched through the teaching of our former pastor and through his persistent work and interest in his Lord's Kingdom, a good class has been built up.

2nd.—That the class feels keenly the loss of its former pastor, his counsel and instruction which has been spiritual food to the individuals forming the class.

3rd.—That the prayers and good wishes of this class follow Dr. Cullom, and our prayer is that the Lord may bless him and his family through the coming years.

4th.—That a copy of these resolutions be spread upon the class minutes, a copy forwarded to Dr. Cullom at Wake Forest, and a copy sent to the Recorder and the local press for publication.

This July 28th, 1917. E. G. TAYLOR, MRS. HOWARD ALLEN, MRS. E. C. WEST, MRS. J. P. FITZMAN, Committee from T. E. L. Class.

Messrs. Casper Warren, J. C. Clifford, R. G. Taylor and E. M. Warren, were in Raleigh Monday. While there Mr. Casper Warren was sworn in for the practice of law by Judge Lyon, of the Superior court, and secured his license.

The government has distributed to all local boards complete sets of blanks to cover appeals, transfers and any other matters in connection with the process. Full instructions for filling out any form of blank and specific instructions as to the manner in which each is to be used, also have been provided.

Another point on which there has been much doubt is the status of registrants absent of requests have come from men in this situation, asking if they will have to return to their home towns for examination.

They have been informed that if they are selected for examination, each will be notified by mail by his local board and then he can apply to the board for permission to undergo examination in the town where he is located.

Such action cannot be taken until the registrant has actually been summoned by his local board.

Registrants may examine these at the quarters of local boards every effort has been made to prevent the filing of affidavits or other documents that do not apply to a case actually under consideration.

Must Be Summoned for Duty The regulations provide that no man can come up for examination in any way before either local or superior boards until he is actually summoned for military duty.

Probably the point in the whole process which has led to the greatest misunderstanding and confusion is the system by which industrial exemption is to be granted.

Many persons have regarded it as certain that men in munition making or other strictly war industries would be exempted as a class.

What is to govern the process is the importance of the individual in such an industry.

EVANGELIST HAM CONDUCTING GREAT REVIVAL AT ROSEBORO

Preaches Sermons On Fall of German Empire—Over 100 Conversions

Roseboro, July 15.—This town and community is enjoying a revival of much power and influence under the leadership of Evangelist John W. Ham. The crowds have become so large that it was necessary to procure additional seats from churches, school houses and lodges in the community.

Thursday night Mr. Ham spoke upon the fall of the German Empire in the light of prophecy, basing his message upon the second chapter of Daniel. He said that the image with its various elements represent different governmental periods of history and pointed out that the age of gold, silver, brass and iron had passed and that the iron represented monarchial forms of government, and the clay of the toes and ankles of the image represent Democracy.

He affirmed that we are now living in the period characterized with mixed iron and clay, and that the present struggle is the birth pangs of a new era.
