PLANTS FOR FIVE EASTERN STATES

Stores to Take Holiday Shopping for 10 Weeks. To Conserve Fuel and Relieve Congestion

Washington, Jan. 15.—The government has decided on a plan for the manufacture of goods in the eastern states for five weeks, beginning on Monday, Jan. 19, and continuing for 10 weeks. To conserve fuel and relieve congestion in the shipping and distribution of goods, the government has decided to limit the number of plants in the eastern states which are permitted to operate during this period.

At the same time, the government has decided to limit the number of plants in the eastern states which are permitted to operate during this period. The government has decided to limit the number of plants in the eastern states which are permitted to operate during this period. The government has decided to limit the number of plants in the eastern states which are permitted to operate during this period.

The government's move came entirely without warning. It was announced by the War Department, which has the approval of the President, and is a part of the government's plan for the distribution and use of coal. It was decided upon hurriedly by the President and government heads as a desperate remedy for the fuel crisis and the transportation tangle and the confusion in the munition plants are not expected from the closing down order.

Officials tonight would not discuss the far-reaching effects the action would have on the industrial fabric, and questions as to how the order was to be interpreted to most specific problems went unanswered.

The order prescribes a preferential list of consumers in whose interest it was drawn. These users will get coal in the following order:

Railroads, household consumers, hospitals, charitable institutions, and army and navy cantonments.

Public utilities, telephone and telegraph plants.

Strictly government enterprises, excepting factories and plants working on government contracts.

Public buildings and necessary government, state and municipal requirements.

Factories producing munitions, food and food for immediate consumption.

Announcement of the provisions of the order was made by Fuel Administrator Garfield after a White House conference which was attended also by Secretaries Baker and Daniels. Earlier in the day Dr. Garfield had sought the views of other officials and it was said tonight the unanimous opinion that the measure contemplated was necessary under the circumstances.

As first drawn and as approved at the White House the order called for the closing of factories beginning tomorrow morning. This was changed upon consideration of the confusion which would result when millions of workers went to their duties unaware of the government's move.

INDUSTRIES FOR FIVE DAYS

Fuel Administrator Garfield issued this statement:

"Adverse weather conditions in the recent week and the inadequacy of the present coal supply and transportation facilities to meet the war time demand, have made necessary immediate restrictive measures as to the use of coal in that part of the United States east of the Mississippi river.

"The movement of coal in transportation must be so directed as to aid the director general of railroads in dealing with the railroad emergency created by recent blizzard conditions. Domestic consumers of coal must be kept warm and other absolutely necessary consumers must be supplied.

"All industry must be fully restricted in its use of coal in order that the available supply for the remainder of the winter may be properly distributed and may be made sufficient for absolutely essential needs during the remainder of the winter.

"To meet these necessities, the fuel administration has ordered as an immediate emergency measure that on the days of January 18, 19, 20, 21 and 22 preference and priority in the use of coal shall be given only to those consumers whose consumption of coal is absolutely necessary. These include in order: railroads, domestic consumers, hospitals and charitable institutions, public utilities, ships at tidewater for bunker purposes, United States government use, municipal or county government use, necessary public use, manufacturers of perishable food, or food for immediate consumption.

"During the five days designated,

DUNN RED CROSS IS DOING EXCELLENT WORK

German Prisoners Have Been Shipped and Membership Increased to 319 Members.

The Jarvis Chapter American Red Cross was organized last July with a small membership, but recently has been working in earnest. While the chapter is under its jurisdiction is the most thickly populated section of the county and it has only two Auxiliaries, one at Dunn and the other Duke, the chapter has shipped to Division Headquarters the following: 136 bed shirts; 64 triangular bandages; 54 Sculler's bandages; 56 T. bandages; 272.4 bandages; 164 Triangular bandages; 80 many toiled bandages; 40 bandages; 32 napkins; 62 wash-cloths; 12 towels; 32 sweaters; 38 wristlets; 16 hankies; 6 socks. Through the patronage of Mr. P. S. Cooper, of the First National Bank, the chapter has been free of any charge two splendid rooms on the fourth floor of this bank building, these rooms being kept by the janitor and supplied with water, lights, heat and sewerage. The sewing machines and four work tables are always busy on Tuesday and Thursday afternoons, while the chapter have charge on Wednesday and Friday afternoons. Anybody interested in Red Cross work is always welcome and those in charge will be glad to answer inquiries about any part of this work. Our membership now numbers 319 and our chapter leaders are making their plans to enroll the 250 graded school children in the Jarvis Red Cross which is now a nationwide organization.

FACE TRIAL UPON CHARGE IMMORAL CONDUCT AT HOTEL

Mrs. J. H. Williams and H. D. Byrd, of Dunn Level, will be called for trial in city court this morning upon a charge of immoral conduct following their arrest at the Belmont Hotel last week. Both are at liberty under \$500 bonds.

The man and woman were charged with immoral conduct after evidence was secured, according to police, showing that they had registered at the hotel and were called last Saturday but continued there until today. The register of the hotel is in the hands of Solicitor Byrd and will probably be used as evidence to show different times when Byrd and Mrs. Williams stopped at the hotel.

The police have twice within the past month arrested men and women who have registered as man and wife contrary to law. Before Christmas, L. L. Norris, who had previously served a jail sentence for violation of the white slave act, and Nellie Green were arrested upon a charge of violating the State hotel law. Both forfeited their bonds and fled the city. Today's News and Observer.

Manufacturing industry shall be allowed to operate, even if it has its coal supply on hand. By this means all industry will be placed on an equal footing and each will be called upon to make its share of the sacrifice necessary to maintain the nation at the highest possible point of military and economic efficiency for the prosecution of the war.

"In addition to this emergency restriction over the designated five days, the fuel administration has ordered that all use of fuel except by consumers classed as absolutely necessary shall be prohibited on Monday of each week from January 28 to March 25—that is on January 28, February 4, 11, 18 and 25, and March 4, 11, 18 and 25.

"The order under which these restrictions are made is designed to distribute with absolute impartiality the burden of patriotic denial. All classes of business are treated alike.

"Except on the days covered in the order, the normal supply of coal to all consumers will be maintained. The necessary consumers designated in the order are given preference and priority in the delivery and use of coal at all times as well as on the days when other use of coal is prohibited.

"The United States fuel administration counts upon the complete patriotic co-operation of every individual firm and corporation affected by the order in its enforcement. Every effort will be made by the fuel administration and other government officials charged with the enforcement of the order to carry out the plan proposed without undue interference with the ordinary course of business.

"It is the earnest desire of the fuel administration to prevent entirely any permanent dislocation of industry or of labor."

REV. E. J. McKAY SAYS GERMANY CANNOT WIN

In Statement Below He Tells Why the Teutonic Power Will Lose the Fight

"Germany cannot win the great war," said Mr. McKay, "nor ever dominate the world. She will be defeated by the Roman world, now in arms against her. But we are fighting a brave people who can be overcome only by a desperate struggle. God's promises are conditional."

The fourth "beast" was strong Exceedingly (Dan. 7:7) EXCEEDINGLY (7:9), and devoured the WHOLE earth (7:23). The fourth or Roman Empire to be supreme in the world till the second coming of Christ (Dan. 7:10, 11, 17, 18; 2:34, 44).

The Germans have been largely influenced by the Roman world, now in arms against her. But we are fighting a brave people who can be overcome only by a desperate struggle. God's promises are conditional."

Designing Germans out of place in the Roman world. Their devilish intrigues must come to an end. Eternal vigilance the price of liberty.

Text—"And when he opened the second seal, I heard the second living creature saying, Come. And another horse came forth, a red horse; and to him that sat thereon it was given to take peace from the earth; and there was given unto him a great sword."—Rev. 6:3, 4.

There is a wide-spread belief among God's people that this great war is the beginning of the end of the age, and that the second seal has been opened, and that the other seals are to follow in quick succession. They believe that these seals represent classes of events, which must take place to prepare the way for Christ's coming kingdom.

When they say that these seals represent classes of events, they do not mean to say that one class of events will end suddenly, and another class begin as suddenly; but these classes of events will overlap one another, not unlike the shingles of a well-covered roof.

After explaining the seals and several prophecies bearing on present day conditions, Mr. McKay continued:

To strengthen the position taken that we are now near the end of the age and that the events now happening are the beginning of the end in fulfillment of prophecy, let us turn to the Book of Daniel. In the second chapter we read of Nebuchadnezzar's dream and the interpretation, and in the seventh chapter of Daniel's four beasts seen in vision and the interpretation. The seventh chapter treats of the same subject as the second chapter. In the second chapter we see an outline of future events, the images there being taken from the inanimate sphere; in the seventh chapter we have a fuller description of the same events, the images used being taken from the animate sphere. In chapter seven we have four beasts corresponding to the four of the great image in chapter two. The symbols selected are not arbitrary, but based on the essence of things. They set forth the beast-like, grovelling character of the world-powers. Daniel sees them in their inner essence as beasts, being estranged from God.

The lion, the symbol of strength and courage, represents Babylon. Nebuchadnezzar, its greatest king, is called a lion (Jer. 47). The wings represent a wide-spread and rapidly acquired empire. The plucking of the wings denote the passing away of Babylon's ability for wide-spread conquests when Nebuchadnezzar was de-ranked.

The bear symbolizes the austere life of the Persians in their mountains, also their cruelty. This bear was seen raised up on one side, i. e., "It lay on one of its fore feet, and stood on the other." "Media is the lower side, passiveness; Persia, the upper, active element." The three ribs in its mouth are Babylon, Lydia, and Egypt, seized by Medo-Persia.

The third beast, the leopard, is smaller than the lion, swift, cruel; springs from its hiding place fiercely and suddenly; spotted. A fit symbol to represent Macedonia, a small and powerful kingdom, and Alexander, its greatest king. In twelve years this man conquered the vast Persian empire, subjugated a part of Europe, and all Asia from the Aegean to the India. He is the founder of the third of Grecian empire.

The fourth beast, the terrible ten-horned beast, represents the Roman empire. It is diverse from all the others, is comparable to none. "It devoured, brake in pieces, and stamped the residue with its feet"—words fittingly expressing the history of this empire.

The Roman empire is still in existence; not, however, as it was in the days of the Caesars—a consolidated centralized empire under an emperor. It has been divided into several kingdoms. (Continued on page No. 4).

WAR TALKS BY UNCLE DAN

New War Methods Have Changed Everybody's Map.

"Hello, Uncle Dan," said Uncle Dan. "Your talk has been telling me how hard it used to be to win a war. Well, I returned her of the war, your father first came to see me, and the joke was played on them, so hold her for a while."

Containing, Uncle Dan said: "You want to talk more of the war, do you? Well, you have made many changes. No two are fought alike. In early times, weapons were stones, clubs, spears, and arrows, swords, etc. In this war, the weapons are the great warships, the invention of gunpowder, and the invention of the airplane, and the
