You can rely on Cardui. It has done so much for so many women. It should help. If you are taken sick, [illegible] to be . . . ," writes Mrs. Mary E. Vesie, of Madison Heights, Va. "I got down so weak, could hardly walk . . . just staggered around.

. . I read of Cardui, and after taking one bottle I felt better. After taking three bottles in all, I felt much better. I took 3 or 4 bottles at first time, and was able to do my work. I take it in the spring when run-down. I had no appetite, and I commenced eating. It is the best tonic I ever saw." Try Cardui.

When the Human Machine Goes Wrong

YOUR body in normal condition is a perfect machine. As long as each part maintains a proper relation to every other part, and is supplied with abundant nerve power, the result of its activities cannot be other than that of Health. But if there is a mechanical interference with the transmission of power from the brain to the various organs of the body there is dis-ease in the organs so affected.

The Art of Chiropractic
(Ki-Ro-Prak-Tic)
demonstrates that this interference is due to subluxations (displacement of the bones of the backbone) which compress the nerves and disturb the nerve energy, and by an original and adequate means of adjusting, corrects the cause so the human machine will produce health—not dis-ease.

You want to be well—you want your loved ones to be well. Don't deny yourself the help which Chiropractic offers. Come in and let us explain.

HAD THE LAUGH ON COOTIES.

Soldier's Humorous Explanation on Why He Was Wearing Such "Giddy Lingerie."

Life on the front had its whimsicalities at times in spite of rolling barrages, the hail bullets, the jangle of caissons and the whining of truck-motors. Lieut. Harry B. Henderson tells of a beautiful red rose on his camp table, in a letter to the Wyoming State Tribune beside an Austrian shell withe bit of scenery painted on it, which served as a paperweight. Then there are incidents that excite the "risibles" and afford needed diversion to the mind. For instance:

"The other day they were keeping us a bit busy and I had my ear on top of my head all the time deciding on each 'whiz' as it approached. Just in the hotest part of it, one of my gunners came tearing down a rutty road, clad in a Prince Isaac coat he'd found in a raid and wearing a Boche cap. He was pushing a baby buggy full of potatoes and dynamite which he thought I could use. We had the eatables for lunch and then blasted a new dugout with the explosive. You can't imagine how you laugh when you've been bit under a strain for several days of firing and then see something funny. But for my sense of the proprieties I'd describe the giddy lingerie the young man was using for underwear. He explained to me that cooties got so tired of wandering through lace!"—Literary Digest.
