FINAL SETTLEMENT NOT TO BE AIMED AT

laternational Food Problem.

London, March 26.—The Paris correspondent of the Pall Mall Gasette says, on high authority, that "in order to avoid peril which would inevitably arise if preliminary peace terms are not drafted until such time as the various commissions shall have finished their respective reports the representatives of the great powers have drawn up certain proposals which seem ample to constitute the basis of the first treaty, or one analogous to that signed at Versailles in 1871.

The correspondent adds that these propomals are under the consideration of inner council of four, President in my letter in my letter in the past of supervisors. "Conforming to the assurances given the first treaty, or one analogous to that signed at Versailles in 1871."

The correspondent adds that these proposals are under the consideration of inner council of four, President willson and Premiers Clement of census supervisors.

Gentlement will greatly expedite decisions.

Terms Loak to Endward Presce.

"A final settlement will not be aimed at," continues the correspondent, "but the terms will. be sufficiently firm, drastic and definite to provide for an enduring peace, justify in large measure early demobilisation, simplify the grave international food problem and pave the way for speedy industrial reconstruction and financial recorpanization.

"The principal aims of proposals now before the isner council are (1) to insure ample security for the future protection of France, aspecially on her eastern frontier, (2) to establish a strong Italy with a formidable northern harrier against aggression, (8) to create a strong Poland, (4) to found a league of national pledged, on material as well as moral grounds, to the preservation of world peace."

GENERAL TERMS Enumeration Which Will Be Made in January, 1930, Will Help Selve Labor Problem.

Washington, March 2i.—The act providing for the fourteenth and subsequent decennial censuses was signed by the President on March 3. The enumeration, which will be made in January, 1920, is now less than ten months distant, and the census bureau already has under consideration the selection and appointment of not to exceed 400 supervisors who will have tharge of the 90,000 enumerators. The supervisors districts will in most cases, except in the large cities, have the same boundaries as the Congressional districts. The supervisors, under the law, are to be appointed by the secretary of commerce upon the recommendation of the director of the census.

enceau and Oriando—as the deciding attitude of the conference is the most significant evidence available of a reasyed resolution to speed up a treaty of peace.

The French semi-official explanation is that progress became impossible because of the cumbersome size of the council of tan, which with its secretarial, its experts and its other attaches really became a council of forty. The delegates on record for future historiana, rather on record for future historiana, rather than to promote a quiet decision.

BOND ISSUE

As our people well know the last Legislature passed an act authorising an election on issu-ing \$50,000 road bonds for ing \$50,000 road bonds for Averasboro township. If santiment is strong enough I think the Board of County Commissioners will order an election. On the other hand if there is not considerable sentiment in favor of the election I do not think the Board will order it. This is simply to give you fair notice to get busy if you want the election called.
