## IT WILL PAY YOU

Thirty-two wagons of Cotton were on our yard when this photo was taken. In exactly one hour and fifty minutes they were all ginned and gone.

### We Operate the Most Modernly Equipped Cotton Ginning Plant In the World

We Gin Your Cotton Quick  
We Gin It Right  
We Treat Our Customers Right

One of our customers came to our gin four times in a single day from a distance of four miles and left with his fourth bale ginned before sunset. On that day we ginned more than a hundred bales in day light.

Another customer told us that he came to our gin and drove past because fifteen bales ahead looked crowded to him. He waited at another gin four hours and finally returned to us, finding seven more bales ahead than when he left. These twenty-two bales were ginned in less than two hours and he was served, even then, sooner than he could have been served at the other gin.

A minister of the Gospel, who one day left our gin because, not realizing our capacity, he thought his turn was too long off, says that he has since promised the good Lord that if He will forgive him for that mistake, he will never do it again.

#### LISTEN.

Fifty bales ahead means no more wait at our gin than fifteen or twenty bales means at any other gin that you have ever seen.

Hundreds of customers tell us they get just as good returns, and much quicker service, with us than they have ever had at any other gin.

No gin can beat the good work we do. No gin can do it as quickly. Time is money to all men now and we are the biggest savers of your time you have ever had to gin a bale of cotton for you.

We pay the highest prices for seed every day and you don't have to touch them. We have meal on hand all the time and will give you as good trade as you can get anywhere.

We handle only the best grade of meal.

If you are our gin customer you can get meal whether you have cashed in your seed tickets or not. It makes no difference to us. If we have ginned your cotton and bought your seed, you can get meal and get it right.

Don't take just anybody's word about us and our gin. Come and see for yourself. All sorts of things are told about us. But those who come once, keep on coming. It is only those who come who can know the truth.

If you hear that we are crowded out or broken down, pay no attention to it, but come right on and get your cotton ginned. We can serve you.

We appreciate all our customers and invite everybody who has cotton to gin and seed to sell to come and let us be your friend.
