

BUTLER BROS.

Welcome You to Dunn's Great Fair and Invite You to Visit their Mammoth Store While you are in Dunn

Butler Brothers will be delighted to show you their store. They want you to go through its four great floors filled with the best goods they have been able to pick from the markets of the world. Even if you do not want to buy now, you will enjoy seeing the store. You can find it easily. It is the big red brick building at the corner of Broad and Wilson.

DETROIT VAPOR-Wickless, Kerosene-burning, Cook Stove. Best on Earth—While Present Stock Lasts.....\$78

It will be worth your time to pay a visit to this wonderful store stocked full of hardware, furniture, mill supplies, farm implements, building material, wire fencing, musical instruments, sporting goods, guns, shells and every things else one would expect to find in a first class establishment of this character. Everything in this stock is of the best quality and priced as low as present market conditions will permit.

Best Pocket Knives 1.50

Superfine Pocket Knives\$1.75

Pocket Knife Bargain\$1.00

Our store is one of the largest devoted to any purpose in North Carolina. The main building is the handsome three-story and basement structure you see at the corner of Wilson Avenue and Broad Street. You can't miss it when you come through the main street of Dunn. Our several warehouses are located in different parts of town. They as well as the main building are filled with goods that you will need before another crop is planted. If you are wise you will buy before we are forced to raise prices.

We are showing here a few of our standard goods. Of course you know that these are only a very small part of our big stock. Their prices are some higher than they were two years ago, but still they are priced at figures much lower than many dealers are charging and lower than we will be obliged to charge when the present stock is exhausted.

HOT BLAST HEATER

None better at any price \$55

The markets of the world were never more heavily taxed than they are at this time. The countries of Europe need American goods to supply mills, farms and homes that were wrecked by war. America itself needs material for new construction and repairs that were delayed because of the war. In addition to these reasons for increased prices, American mills are being handicapped by strikes to such an extent that production is not near normal at a time when the demand is greatest.

We have bought as heavily as possible, but even so our stocks are, to a certain extent, limited. While they last, however, you will be given the benefit of our good fortune. We will not raise prices until we are obliged to. In the meantime you will do well to place your orders for everything you need in hardware. We cannot guarantee prices to hold at the present level for any great length of time.
